**PATENTS**  
CAN I OBTAIN A PATENT? For a Patent, know and an expert opinion, write to MUNN & CO., who have had nearly fifty years' experience in this, patent, business. Complete and reliable information. Patents and how to obtain them sent free. Also, a list of mechanical and scientific books sent free.  
Patents taken through Munn & Co. receive special notice in the Scientific American, and thus are brought widely before the public with the latest weekly, elegantly illustrated, by far the largest circulation in the world. Send for the book, 82¢ a year, sample copies sent free. Building Edition, 10¢ a copy. Single copies, 35¢ each. Every number contains many valuable hints, in colors, and photographs of new patents, with plain, concise explanations of them. Patent attorneys and agents everywhere. Address MUNN & CO., NEW YORK, 351 BROADWAY.

## Nevada's "Death Spring."

Men and Animals Fall Victims to the Poisoned Water.

The death of Robert Watson, a cattle man, after drinking of the waters of "Death Spring," in the Rabbit Hole mountains, again brings into prominence this terror of Nevada stockmen. The spring is situated in Humboldt county Nevada. Its waters are so impregnated with arsenic that death results to most creatures that drink from it. Running from the spring is a tiny stream, clear as crystal, which sinks into the ground about a hundred yards from the spring. Along the banks of this stream are to be found the bones of hundreds of small animals, and even of sheep and cattle that have drank of the water and died.

Stockmen have built a high fence about the spring and, so far as possible, have enclosed the stream. It seems impossible, however, to keep stock from drinking the water. Situated many miles from any other water supply, cattle will get to it, no matter what precautions are taken to prevent them. Hundreds of head of stock are lost each year on account of it.

Watson had lived in the vicinity for a quarter of a century and was well aware of the fatal properties of the spring. He was out hunting stock when he became separated from his companions. He lost his horse and was obliged to follow them on foot.

The second day after his mishap, after being nearly thirty hours without water, he reached the spring. His thirst was overpowering and, in his painful delirium, he drank of the poisonous water, much the same as shipwrecked sailors drink from the ocean when their thirst becomes unbearable.

His friends, who had expected him to overtake them every hour, had, in the meantime, concluded that some mishap had occurred, and turned back to look for him. They found him shortly after he had drunk of the deadly waters. He was still alive, but suffering the greatest agony. All that could be done in the desert to relieve him was done, but without avail. He died within an hour after his companions found him.

A similar spring is to be found between Mountain Meador and Susanville, Lassen county, California. The waters of this spring and the stream that runs from it are green and uninviting unlike those of the Nevada spring in this respect. The bones of many deer, cattle, sheep and wild animals that have tasted of the water of spring or stream are to be found in the vicinity. Stockmen have built a seven foot board fence around the spring, and on top of the fence have put several lines of barbed wire, that stock may be kept from it.

"I think I would go crazy with pain were it not for Chamberlain's Pain Balm," writes Mr. W. H. Stapleton, Homestead, Pa. "I have been afflicted with rheumatism for several years and have tried remedies without number, but Pain Balm is the best in the world. I have got hold of one application relieves the pain. For sale by F. W. Hall Mds Co.

## Just What is Needed.

It has been stated, on very good authority, that every effort will be made to keep whiskey out of the next election. In fact, an effort will probably be made to have resolutions passed condemning any candidate who allows its use in his campaign, and to have pledges made to vote against the man who does allow whiskey used, it matters not who he may be. The candidates will go into the field understanding the position taken by the Democratic Executive Committee and other political leaders, and must abide the consequences. We earnestly hope this is not merely a rumor and will end in talk. The use of whiskey in elections is worse than disgusting. And the man who will stoop to such a means to become elected is not worthy to hold office. Better be defeated a thousand times than be defeated by drunken men. Horrible defeat is far to be preferred to dishonorable election. We hear a great deal about purifying the ballot. It can never be done as long as whiskey is allowed to take so prominent a place in elections.

We believe no one will be gladder of strong resolutions taken against the use of whiskey than the candidates themselves, if they knew every man would stand by the pledge. Each one says, I don't want to use it, but the other man will do it. It is time that a systematic effort to stop this evil way being made. The Advertiser will certainly give its support to any effort made in the cause.—Clarkeville Advertiser.

Are our Lumpkin county candidates willing to go into an obligation not to use liquor in the election too?

## Oldest of Towns.

The oldest township in this county is located right here in this county, in one of the richest sections of Michigan, says a Kalamazoo correspondent of the Cleveland Press. It is called Charleston, and is populous as well as wealthy. Despite the fact that the residents are generally well educated and of a law-abiding disposition there is not a church edifice in the township, nor a religious organization of the kind.

The inhabitants exchange their farm products for merchandise, as do other people, but there is not a grocery, dry goods, drug, hardware or any other sort of mercantile establishment within its confines.

The people never voted the saloon out of the township, and yet there is none. Neither can the township boast of a bank, postoffice newspaper or clergyman.

## Utah's Sugar-Beet Factory.

There is a sugar-beet factory at Lehi, Utah. At Springdale, twenty five miles above, there is no refinery, but there is a "crusher," where the sugar beets are sliced and the sugar extracted. The sugar and all the impurities in a very thin syrup, are piped twenty five miles to Lehi, where the sugar is refined and extracted.

## Traveling in Colonial Days.

After the period of walking and canoeing had its day in colonial times, nearly all land travel, for a century, was on horseback, just as it was in England at that date. In 1672, there were only six stage-coaches in the whole of Great Britain, and a man wrote a pamphlet protesting that they encouraged too much travel. Boston then had one private coach. Women and children usually rode seated on a pillow behind a man. One way of progress which would help four persons ride part of their journey was what was called the "ride and tug" system. Two of the four persons who were traveling started on their route on foot; two mounted on the saddle and pillow, rode about a mile, dismounted, tied the horse, and walked on. When the two who had started on foot reached the waiting horse they mounted, rode on past the other couple for a mile, dismounted, tied and walked; and so on.

## Searchlight at Fires.

The New York Fire Department will soon have as part of its equipment a complete electric searchlight plant on wheels, which will attend fires with the other apparatus, and it is expected, will perform an important part in saving life and property. The searchlight will be used to illuminate dark parts of the street and aid firemen in laying hose, erecting ladders and also light up the fronts of buildings where people may be in danger, and to throw light into the buildings themselves to aid the firemen in their work. The apparatus will resemble a fire engine in appearance, and will consist of a boiler, a direct-coupled engine and dynamo and two searchlights, each with an eighteen inch projecting lens. The lights can be used either from the machine itself or carried to any convenient point, connection being maintained by means of flexible cables.—Electrical Review.

# THE NUGGET.

DAHLONEGA, FEB. 9, 1900.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Even the price of rice is advancing.

A case of small pox is reported in the western part of Bartow county.

Canton, Ga., is to have a cotton mill with 5000 spindles and 100 looms.

The pension department will commence paying widows about February 12.

It seems that the dog law cannot go into effect in any Georgia county until the first of next year.

Roberson, the ex-tax collector of Hall county, charged with embezzlement, has been given a new trial.

The republicans in nearly every county in Georgia are organizing and getting ready for the great political fight that is to take place this year.

Geo. E. Collins, who has been in charge of the Reynolds and St. George mines in White county for quite awhile has gone back to Central City, Colorado.

Even editors can't agree in politics. The Alpharetta Free Press wants Col. W. E. Simmons to represent the ninth while the Cherokee Advance still sticks to Mr. Tate.

While England is seizing American flour, supposed to be intended for the Boers, American ordinance factories are working overtime in manufacturing machine guns for the British. The quality of American neutrality seems to be sorely strained.—Marietta Journal.

It is said that a printing office in western Michigan is opened with prayer. "This is a rare exception to the rule" says an eastern Michigan newspaper, "as from time immemorial it has been the custom for the office to be opened by the devil and closed by the sheriff."

State School Commissioner Glenn in addressing his annual circular to the county school commissioners informs them that the act authorizing all holders of licenses or diplomas to teach without examination, except those holding state certificates issued at that department, have been revoked. Mr. Glenn adds, "the Attorney General advises me that there can be no exception allowed under the law. I tried before the committee to have the two normal schools excepted from the operation of this law, but the legislature struck out the amendment, and thus positively refused to accept any body except those holding State certificates."

More than \$10,000,000 worth of new woolen goods were sold in one day in New York recently. The most notable thing in connection with the sale however, was not the amount of money involved but the transactions were conducted by the woolen goods trust, which controls absolutely the output of twenty-seven of the largest woolen mills in the country. Under the plan of trading which obtained up to a few years ago, the purchase and sale of this amount of woolen goods would have given employment to several hundred men. Under the trust plan one man does all of the selling.

W. M. Bridges, ex-county school commissioner, has been sentenced to the penitentiary for a term of four years for stealing \$5,475.15 of the school money. He has already been sent off and has been given a bookkeepers place. He has been a power in politics in Floyd county and no doubt will be pardoned out before the election so as to enable him to take the field for some candidate. Had he stole only \$5.75 he would have been given a pick or a shovel. The rule is now the bigger the theft the easier the job. This encourages stealing. No difference ought to be made in convicts. If any is made those stealing the least amounts should be given the easiest jobs.

The Stewart mill is still moving along and the usual result if not better may be expected.

Those interested hope to be able to have the Hand mill and chlorination plant in operation by about the first of next month.

W. E. Hettrick, F. E. Ikes and Dick Townsend, all stockholders of the Consolidated Co., spent several days here this week looking at the progress of the work.

They are still surveying to see from which place will be the most practical point to get a sufficient amount of water on Crown Mountain. Three places are in view.

The core drill, used by the Consolidated Co. down at the Benning has reached a depth of about 150 feet but we do not know what they have struck as no information is given out for publication.

We are informed that they will soon begin to build an electric car line down the creek from the Hand mine to the Fidelity, so as to be able to get the ore from this celebrated mine to the plant.

The whistle at the Birch boat can be heard again as a notification that all the ice in the Chestnut river has melted with no obstacle in the way now to keep the machinery from bringing up the yellow metal from the bottom of the stream.

Just as the Crescent mill was ready to start up again first of last week the blizzard came, freezing the ice in the dam four inches thick and as it was impossible to run the machinery under these difficulties, it was not started until a few days later.

They had out so much ore already at the Hand that they commenced running the tramway first of the week both day and night to the bin so as to get it out of the way. Another sulphur vein was struck in the big tunnel Tuesday night. Width and thickness not known yet.

Although but little is said about it, work is still progressing down at the Calhoun mine and it is useless to say that they are making money. An assay office has been fitted up and Mr. Whorton Anderson put in charge of the same, which will make it very convenient for parties having ore they wish tested in that locality.

The new company which recently purchased the Willis property just across the line in Dawson county, have gone to work and in the near future will put up a large mill whenever it is fully decided at which point is the most practicable place for its location. The company owning it will be known as General Joe Wheeler, with Z. B. Huett, of Bridgeport, as its president. Other mining property will change hands in that county within the next few days.

We have received the prospectus of the Crown Mountain Gold Mining Co., which gives a full and complete description of the location of the property, the richness of the veins and the different profits from which water can be had to run the necessary machinery to work them to a great depth. Besides this the prospectus contains the certificates of the best known experts and old native miners of long years experience, who tell the people, without any fear of contradiction that Crown Mountain is one of the best gold mines in all this country. We are no miner but are well acquainted with these gentlemen who are, and we have the utmost confidence in what they say, causing us to be very anxious to see the new company get things in full blast on this most excellent property.

If parties wish to see something in the way of rich gold ore they can have the pleasure of taking a peep at some that is very nice by going out to the Doghead vein down at the Barlow mine. Several gentlemen from the north paid that place a visit first of the week. Then if you don't wish to go that far just step over a short distance to Crown Mountain and see the vast amount of pure yellow metal that can be shown you in one vein alone, and then follow the ridge till you come to what is known as the Preacher mine and take a look at the rich Wallace vein. No use to take your magnifying glass. You will see enough gold to cause you to almost imagine that you are in the Klondike region.

Messrs. H. F. Holland, of London, H. Burrell, of Chicago and S. A. Kay, of Denver, Col., spent most of last week here looking at the mines. They didn't just go to one mine, take a little survey of the situation and go away, but visited various mines, remaining long enough to take a general observation of things, enabling them to return home and make a correct report of our vast mineral resources. Mr. Burrell has no interests here in any of the mines whatever, only came down to satisfy his curiosity, who took occasion to remark that he was greatly surprised. He was satisfied that there was some gold ore here but had no idea it was in such large quantities. He has visited various mines in the West and after returning from Crown Mountain said, "I have seen more veins to day than I ever saw before in the same length of time." Lumpkin county is a second Klondike and it will not require much more time for the people both east and west, north and south to find it out—some are already beginning to realize this fact now, causing eyes to be turned on us from every direction. Don't take our word for it. Come and see. You won't have to encounter any hardships in order to get to Dahlonega. Neither will it cost you much money to make the trip. Come along.

Grass, grain, hog, hominy and cotton factories would prove the salvation of the South. A big cotton crop at four cents would wreck us. A small crop at a big price with lots of cornbread, biscuit and bacon would be better than a Klondike gold mine.—Ex.

## Is Baby Too Thin?

If so, there must be some trouble with its food. Well babies are plump; only the sick are thin. Are you sure the food is all right? Children can't help but grow; they must grow if their food nourishes them. Perhaps a mistake was made in the past and as a result the digestion is weakened. If that is so, don't give the baby a lot of medicine; just use your every day common sense and help nature a little, and the way to do it is to add half a teaspoonful of

## SCOTT'S EMULSION

to the baby's food three or four times a day. The gain will begin the very first day you give it. It seems to correct the digestion and gets the baby started right again. If the baby is nursing but does not thrive, then the mother should take the emulsion. It will have a good effect both upon the mother and child. Twenty-five years proves this fact.

Scott & Downie, Chemists, New York.

## Graded School Honor Roll For January.

Only those pupils who make a scholarship average of E (90), and who are perfect in attendance, punctuality and deportment are entitled to a place on the honor roll.

Grade I.—Pearl Rice.  
Grade II.—Frances Stanton, Emma Hadlow, Willie Wallace, Irene Moore.

Grade III.—Pearl Anderson, Callie McAfee, Mattie Thomas, Nina Wallace.

Grade IV.—Mary Johnson, Alice King, Fannie McGuire, Sodie Nabers, Gertrude Thomas, Mary Thomas.

Grade V.—Noah C. Head, George M. Stanton.

Grade VI.—Eliza McAfee, Willie Reese, Howard Stanton, Montie Moore.

Things are a little better shape in Kentucky. A few days ago some unknown assassin shot Governor, the democratic contestant for Governor, who took the oath of office and tried to run the business of the state until he expired last Saturday afternoon, during which time Taylor, the republican, contended that he was the proper governor who did all he could to get in power, and now the democratic legislature are holding forth temporarily at Louisville while the republican legislature will meet in some other portion of the state. Neither body is doing anything except to adjourn from day to day until the matter is decided by the courts.

The tallest man in Lumpkin county now is W. W. Honey, who has recently moved in from Pickens county, being seven feet and six inches. From the short acquaintance we have had with Mr. Honey the old gentleman is as clever as he is tall.

Both the Cleveland Courier and editor like to have frozen up last week, consequently only a half sheet was issued from that office, which shows that it was a few degrees colder up there than in Dahlonega.

Our new list of subscribers for the month of February is swelling fast enough to please us and will be a right nice one by the end of the month.

As we go to press several more northern gentlemen are expected here for the purpose of looking over the gold fields of this section.

Miss Edith Fetherman, a very attractive lady of Oneida, Tenn. is the guest of Prof. and Mrs. Colvin.

The republicans of Lumpkin county have a meeting in Dahlonega to-morrow.

H. L. Blackwell, a former marshal of Dahlonega, has located at Clarkshoro, Ga.

Moore & Bro., the wide awake liverymen, are doing a thriving business. They advertise.

Catarh Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, and acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarh. Send for testimonials free. F. J. CHERRY & Co., Props., Toledo, O. Sold by druggists, price 75c. Hall's Family Pills are a tie best.

## Mining Company Organized.

The Pioneer Exploitation and Development Company is organized with W. W. Murray, President, J. H. Moore, General Manager and J. F. Moore Secretary and Treasurer. This company is now ready for the transaction of business. Office for the present in the rear of J. F. Moore's store.

## MINERAL PROPERTY FOR SALE.

I have in my hands for sale several first class Gold Mining Properties. Correspondence solicited.

W. H. G. TATE, Ordinary.

Feb. 9 1900.

And still they come—visitors.

Luther Hightower talks of making the race for sheriff.

Those of our home merchants who advertise patronize the Nugget.

The nice residence in rear of the Consolidated Store is about completed.

Some of the colored people of Dahlonega are making an effort to organize a brass band.

Strangers still keep coming to Dahlonega for the purpose of making it their future home.

J. M. Brooksher now occupies the Gaillard residence, which he purchased two or three weeks ago.

Frank Jones painted this office a nice sign last week which will hereafter direct strangers where to find us.

Just received another new lot of stationery. Send in your job work at once. First come first served.

G. McGuire is the place to get your ready made pants. Both the goods and prices are sure to please you.

Whether you are an Irishman or not call on G. McGuire and get some of those nice potatoes he has for sale.

We understand that a laborer by the name Thomas Clark was slightly injured down at the Hand mine last Saturday.

Do you want to either buy or rent a dwelling located near the public square? If so call on E. W. Strickland.

It is reported that Halls Villa will change hands first of next month. We also look for many changes to take place in our growing city soon.

The managers of one company alone sent off five hundred letters (not circulars) in two days last week. This gives some idea of the business that is going on in Dahlonega.

The lower room of the Masonic Hall is now being converted into a store room by carpenter Geo. Duncan. It is being fitted up so as to make it one of the most convenient store rooms in Dahlonega.

Mayor Price seems to be determined to break up the habit of cursing on the streets in Dahlonega to some extent. He remarked the other night during his court that he would fine every one brought before him hereafter for this offense.

Bear in mind that the fee of legal ads must be paid in advance by those wishing anything published in the Nugget. The law gives the printer the right to demand it in advance and we wish to conform to the rules of law then there will be no trouble.

No wonder John Brackett disappeared from Dahlonega recently and couldn't be seen for a week. A sixteen pound girl made its appearance at his house and he had to remain at home for several days and furnish it with vocal music. This makes the eleventh new comer at this place of abode.

Tessie Owens attracted the attention of a large number of people last Monday afternoon when she appeared in Dahlonega with a pistol swinging to a string to one hand and a bottle supposed to have contained liquor in the other. It is hard to tell which would have been the most dangerous, the liquor or pistol. Such conduct is enough to make an ass blush with shame.

After the foundation of Prof. Austel's house was laid the other day, across the ridge from Mrs. Reeves, it was discovered that one of the pillars had been made out of sack showing gold. The Professor's house will certainly be on a firm foundation, which pillar will give him much pleasure to show his friends when they come to see him, especially if they are the ones who complain of hard times.

Cast your eyes on the legal advertisements in this issue.

Collector Richardson came up last Monday from Gainesville in the interest of Uncle Sam.

Both a negro preacher and a negro banjo picker spent last week in Dahlonega. The latter received the most attention and got the most money.

The council have decided to have all fences and other obstructions moved from the streets. Parties residing on Choate and Derrick streets were served with a notice to that effect first of the week.

A. J. Loftis, an enterprising Union county farmer was over last Monday with a load of leaf tobacco which he readily sold at 10 cents per pound. Tobacco is about the best product our farmers can raise in upper Georgia. It beats cotton.

If you want to learn all about the great political trouble and killing in Kentucky send \$1.50 and get the two week Atlanta Journal and the Nugget both twelve months, or the Atlanta Weekly Constitution and this paper one year for \$1.75.

When you want legal aids, inserted give the advertising fee to the office through whose hands the papers pass. If it is sheriff's sales hand the money to the sheriff, and if it is something the ordinary attends to, give the money to him. Then your ad will receive the proper attention.

Mr. Meador, a member of the company owning the iron works in Gainesville, spent several days in Dahlonega since our last issue, taking in the many sights at the Hand mine. Although he has manufactured machinery of all sorts and sizes what he saw at this plant was very interesting to him.

The city council have fixed the street tax for the present year at \$5 or four days work, which, if worked must be done by the one owing the tax. No trade checks or commissions taken. The dog tax is the same as last year, fifty cents for male and \$2 for female dogs, which is required to be paid in hard cash alone.

There is one store run by a colored person in Dahlonega now, being the first one owned by a negro here since old Free Jim died many years ago. There is also a barber shop run here now for the accommodation of the colored people. Dahlonega will soon be a breast with other cities, showing the progress of both races.

The architect who drew the plans for the Bostwick Hall, has been to Dahlonega and inspected the work of the building generally, and it was decided to detain six hundred dollars of the money contracted for its building on account of inferior brick and other deficiencies until the contractor plasters the outside wall and makes the other work good.

A few days ago Prof. B. P. Gaillard, one of the members of the city council from the second ward, moved into the first ward, leaving a vacancy in the council, which place was filled at a regular session of the body last Monday night by electing H. D. Gurley, who accepted and was sworn in and began his official duties at once. Mr. Gurley is a wide awake, energetic business man who will do his full duty in keeping up his end of the row. The council could not have made a better selection.

It has been decided to sell the present calabose and build another in a more out of way place. It is now on a very public street and in plain view of the graded school and near enough for the pupils to hear everything that is said by a drunken man in it. This building was formerly constructed for and used as a jail for a long number of years, being built of large doublet logs and sufficiently strong that no one ever escaped only through the door, but is unfit to confine any one in, either drunk or sober, for the lack of proper ventilation, and ought to have been torn away long ago.

Society envelopes for students can be had at this office at five cents a pack.

Those failing to advertise have ample time to warm their hands during all blizzards and cold spells.

The bad roads causes a scarcity of lumber in Dahlonega just now which is giving builders trouble to carry on their work.

Mr. and Mrs. Leoria Pitner of Atlanta, have been here on a visit this week to relatives and friends after spending some time across the Blue Ridge.

We are informed that one of Dahlonega young men went down to Dawsonville recently and was caused to deposit something like four dollars in the city treasury.

We understand that it is the intention of Mr. Pfater to put him up a store soon on his property recently purchased from J. M. Brooksher near the Strickland house.

John Hutcherson was up from Auraria last Monday. John is fixing to build him a new saw mill down in that section which shows that there is a demand for lumber. All of which means business.

Maud Corn, quite likely was informed by some of her admirers the intention of Mayor Price to bind her over to the Superior Court. She left out a few days ago for parson unknown headed towards Gainesville.

The revenue officers went out into Nimberville district last Tuesday and pulled out a still and destroyed a large amount of beer near Fred Magnusses. No one was found in possession of the premises and the officers had to come back alone.

Judge Tate has been notified by the pension agent that no more blanks will be sent out this year for new claims of widows, as there is not a sufficient amount of money to pay them off and besides this the law does not take effect until next year. If it did and the state is without any funds to meet it, it would be all the same.

W. F. Beal, after spending a month in our city, getting the core drill as we call it here, in good working order for the Consolidated Co., and training others so they can run it, left for his home in Elyria, Ohio, first of the week, becoming interested enough in the mines during his stay here to subscribe for the Nugget so as to be able to hear from them. People in every direction are beginning to look this way.

There came near being a serious accident down at the Hand mine Tuesday by Frank Worley and Jim London losing control of one of the cars which ran off of a trestle and was smashed all to pieces. A young man by the name of Watts was on the car when it started down grade and when his fellow workmen told him to jump that they could not hold it he did so just in time to keep from being run off in the car.

The store room in the Masonic Hall was leased last Monday to the highest bidder. Two bids were made for it, one by J. H. McKee and the other by E. L. Reese. The former bid \$11.00 per month and the latter \$11.10. Mr. Reese will open out his new store in this building about the first of March. He has a good knowledge of this business and we bespeak for him a big trade as he is well known to every one in the county and a man that is liked by all.

The state school commissioner caused the election of county school commissioners to be postponed until to-morrow. At this time there are three applicants for the position in Lumpkin county. Up to last week Mr. Seabolt, the present commissioner, who is an applicant, had it all to himself, but since then Messrs. A. W. Cain and R. M. Bryson have decided to apply which will make it interesting as all are qualified to hold the office, either of whom will doubtless give satisfaction.

Wanted, a good cook. Apply to B. R. Meaders & Sons Dahlonega, Ga.

You can still get good nice cream cheese at J. F. Moores at 15 cents per pound.

Two nice comfortable rooms with board can be had by calling on J. N. DuPre.

Onions, onions sets and all kinds of garden seeds just received at J. F. Moores, either in packages or in bulk.

A survey shows Crown Mountain to be 600, eighteen feet and three inches higher than the Chestnut river.

New subscribers still continue to send in their names and money. Money and people move the world. Let the good work go on.

Our readers need not be excited when every thing turns dark on the 28th of May. There will be a total eclipse of the sun on that day.

Birch, who attempted to hang himself, still prefers to wear the wooden overcoat, and has to be watched constantly by the other prisoners in jail to keep him from carrying out his intention.

We are of the opinion that the price of town lots will greatly increase here when spring opens. So if you are expecting to build let us sell you one or two very desirable ones so you don't miss a bargain.

Valises 60 cents to \$1.50. Eight day alarm clocks, finished in oak or walnut only \$2.15. Gents silk vest chains with roled plate trimmings 25c. Cuff buttons, nice and pretty, 5 and 9c. Valentines from 1 to 50c. All to be found at B. R. Meaders & Sons.

We understand that the members of the city council have decided that it will be too expensive to open and extend the street through by the old Wimpy stable over into Prof. Boyd's property, but will extend the one leading by Mrs. Reeves and make the proper turn with the ridge so it will be just about as convenient for those who expect to build over there as the other route with a great deal less expense.

There is said to be a man in Dahlonega having such great magnetic power that he can lay his hand on the jaw of a person having the toothache, especially a female, and cure the pain without having to extract the tooth. Dr. Grove, our clever dentist, can't do this but we will tell you what he did do last Monday. A gentleman from Union had him to extract a tooth and the Doctor did it with such ease and comfort that he went back and had three others pulled.

The monthly meeting last Sunday night at the Methodist church of the Dahlonega Temperance Union was one of the best held in some time, and was attended by a large congregation. A very interesting program was rendered. The president announced the following standing committees for the year: Vigilance committee: Col. W. P. Price, J. W. Adams, Prof. B. P. Gaillard, Rev. W. H. Parks, Clyde Meaders. Invitation committee: Prof. Oscar Palmour, J. W. West, Mrs. T. R. Blake. Committee on program for next meeting: Prof. J. M. Martin, Miss May Cardledge, W. M. Smith.

You may look out for another sensation in Dahlonega soon if we have made no miscalculation and we don't believe we have. The woman belongs to the church and the man is on his way to the devil and the female has made up her mind to follow him. When you see a woman attend church and put on such a deceitful face as to make some people believe that she could shed tears as big as crab-apples, who, after she gets away from the house of worship would walk half a mile any time out of her way to get to speak to some favorite one, or if she can't get to speak, go near enough to the man so as to let him see what a pretty figure she is, you may look out. Keep your eye on the Nugget.

A little girl made its appearance at E. E. Crissons last Friday morning.

Prof. Gaillard now occupies the old Wimpy residence which he recently purchased from Prof. J. W. Boyd.

Whenever a person undertakes to be a two sided friend to a newspaper or a person they are sure to be caught up with. The Nugget wants no such friendship(?).

The reason that some pensioners names didn't appear in the list recently published they had been added since the pension agent in Atlanta made his report to the clerk of the Superior Court.

We hear of some parties in this county favoring the dog law who wouldn't wear a pair of socks of any kind matters not how plentiful wool or sheep are, and then talk about favoring taxing the poor widow womans dog, the only protection she has.

Capt. Hall has been in Gainesville for some days. Before he left Florida he had been eating new strawberries and early vegetables, enjoying pleasant weather, but when he arrived at Gainesville he got into a blizzard, making quite a change to him, one which was very disagreeable.

The next lecture of the Lyceum Course will be February 12th, at College chapel. Col. Joseph G. Camp will give his great lecture, "Daughters of Eve." Col. Camp is well known as one of the most eloquent men of Georgia. On Feb. 21st, Dr. B. F. Trueblood, of Boston, will deliver his great lecture on "Militarism, or the Colonial Crime of Europe."

Thirty-nine of the old indigent soldiers of Lumpkin county were made happy last Friday when they were informed that their pension checks of \$50 each had been received by Judge Tate, amounting to \$2,340, which was put in circulation right at once as quite a number had already traded out the amount with some merchant who had an order on the ordinary and was anxiously waiting for the checks when they were received.

There is one of our subscribers in Michigan who certainly likes the Nugget. One day last week he sent us a check which would have paid his subscription to the same up to the middle of 1902. We returned a portion of the money to our kind friend, for fear that he might be in some other clime before the expiration of that time if the female referred to last week deprives us of the principal piece of machinery which keeps things in our breast moving, according to threats made by her recently.

"Shotgun" Walker had a trial last Friday night before mayor Price who was charged with swearing in the presence of the night watchman and others. A large number of witnesses were sworn both for and against, after which the mayor fined the defendant only one dollar without any cost. This pleased Walker so well that he went up and shook hands with the mayor and talked until the gathering resembled one at an old time log meeting house when the congregation went up to give the parting hand to the preacher at the close of a big revival. There were no tears shed on this occasion but "Shotgun" was dressed up in a smile as long as a case knife.

Work is going right ahead on the Consolidated Co's big hotel under the supervision of Mr. Kerr, one of Chattanooga's best mechanics and it is useless to say that everything about the building is being done in a workmanlike manner. The hotel is 60 feet by 103 long, having twenty-rooms, five bath rooms and all other modern improvements, and when completed will be the best and most conveniently arranged hotels this side of Atlanta. Later.—We understand that Mr. Townsend, the northern gentleman who it is said will take charge of the hotel and was here this week, decided that the building first planned, is too small and another story will be added so as to make more room.

There are only three prisoners in Lumpkin county jail now—one white man and two negroes. One of the negroes is charged with using obscene language in the presence of ladies, the other stabbed young Stringer and the white man is Birch, who is charged with stealing Boy Thomas horse.

On last Saturday several of the official members of the Methodist church at Dahlonega who had not been attending meeting very regularly, got a notice a through the postoffice, requesting them to attend services the next day by the preacher, but it rained and the bell failed to ring. We do not know what this special call meant—whether it was for the purpose of taking up a collection or to revise the list of members and start out new at the beginning of the year 1900.

Those desiring obituary notices published will please bear in mind that we cannot do so without a small compensation—two cents per line. It would be more beneficial to say more about the living and less about the dead in the way of encouragement. This would cause many persons to mend their ways, but after they are dead all the good things you may say about them have no effect. Though if those disagreeing with us are willing to spend a little money on it that is what we are here for—to do the work.

Now that Dahlonega has had an amendment made to her charter so as to be numbered with the list of cities, a better system of carrying on the work should be adopted so as to transact the business in a business like manner, more especially when the expenses have been increased. A street overseer should be appointed, letting the marshal remain in town so he can be had whenever desired. Then again, we see no reason why a party owing taxes cannot be allowed to send in their team and work the same out or so much thereof as is needed provided they do good work, and not to be forced to pay in the money and allow the marshal to either put in his own team or hire some one else. Then last, but not least, the night watchman should be required to sit up until daylight at least. The people depend upon him now and are less watchful than heretofore. Remember the ash box generally wakes up along about 4 or 5 o'clock and if there is no one to look after it great damage may be done. This is of much more importance to the town than looking after some fellow with a half pint or pint of liquor or a male and female taking a moonlight walk of a dark night.

We understand that four young men visited some womens houses in the vicinity of Grindles mill the other day and acted in such an indecent manner as to cause the inmates to be alarmed. They cursed and blackguarded until they got ready to leave and the women had no way to help themselves. A few days previous another young man approached a little girl who was alone at the wash place and because she would not agree to his hellish desire kicked the little girl until he got tired. An effort was made to get a warrant but the official persuaded the women out of the notion, but we heard a party say the other day that the matter would be brought to the attention of the next grand jury. We didn't learn the boys names, neither do we know the little girl or any of the women but must say that such conduct as this is a shame to any civilized community and shows no bravery on the part of these young men to go and impose on a lot of helpless females. The law should protect them and do so at once, but where an official does not wish to do his part they will likely continue beating and cuffing these people about till just before court then they will step off, causing the women to believe that they are gone for good or make them afraid to come to court, and thus the matter ends and the guilty go unpunished.

## Prohibition Law Unconstitutional.

The Georgia Supreme Court last Wednesday in the case of O'Brien versus the state from Warren county charged with selling intoxicants handed down a decision which makes prohibition unconstitutional in many counties of this state of which Whitfield is one.

Judge John Canfield said the same thing here last fall while holding court. Here is the point in the Supreme Court's decision: The act of February 17, 1877 (Acts 1877, p. 33) making lawful in any county of this state the sale of domestic wines in quantities of not less than one quart, by the manufacturer of the same, being a general law, and such wines being "intoxicating liquors," a subsequent act which by its terms undertakes to "prohibit the sale and furnishing of spirituous matter or intoxicating liquors" within the limit of a designated county is unconstitutional.—Dalton Citizen.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and efficient cures children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus making it easier to expectorate, and lessens the severity of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by F. W. Hall mdc.

Not long since an Indiana farmer, on seeing his wife tumble into a raging torrent, ran up and down, offering a thousand dollars to the man who would save her, instead of plunging in after her himself. Another Hoosier undertook the commission, gallantly braved the flood and rescued the drowning woman. Whereupon the farmer lowered his bid, refused to produce the stipulated sum and intimated that he no longer valued the life of his wife at so excessive a figure. With commendable spirit—considering the man with whom he had to deal—the rescuer brought suit, the jurors held the farmer to his oath and he was compelled to pay. The man who pocketed the thousand dollars is probably satisfied but the woman in the case still has a grievance. Without being understood to favor divorce and remarriage after the Belmont fashion, it might be said that poetic justice demands that the mean-spirited farmer lose his wife as well as his money, and it would be a satisfaction to know that this abused woman went off on the arm of her rescuer with the thousand dollar check in her hand.

Ordinary Hulsey, of Fulton county, refuses to enforce the dog law in that county, until the Attorney General decides whether the law is operative now or the first of January. He says the Ordinary can not get the law in operation by March first and give the people time to act, as the law says the owners of dogs shall register them on the first of January.

### Three Papers a Week

FOR ABOUT THE PRICE OF ONE.

This paper and the Atlanta Twice-a-Week Journal for

**\$1.50.**

Here you get the news of the world and all your local news while it is fresh, paying very little more than one paper costs. The paper is well worth \$1.00, but by special arrangement we are enabled to put in both of them, giving three papers a week for this low price. You cannot equal this any other place, and this combination is the best premium for those who want a state paper and a home paper. Get these and you will keep up with the times.

Besides general news, the Twice-a-Week Journal has much agricultural matter and other articles of special interest to farmers. It has regular contributions from James M. Mrs. W. H. Felt, John Temple Graves, Hon. C. H. Jordan and other distinguished writers.

Call at this office and leave your subscription for the paper. You can get a sample copy of either paper on application.

## He Skipped.

He had been coming every night for over 700 nights, and a fortune teller had told her to stop him off for one night and break up the monotony. She loved him dearly, but when next he came, she said:

"Thornwald, suppose you skip tomorrow night just for a change?" "With all my heart," he replied. When a night had passed Majoria looked for him, but he came not. As other night passed, and another and another, but his old familiar yank on the bell was unheard. Then the fair girl sent out a general alarm and got track of him. That one night had done the business. He had met and fallen in love with another girl, and had no more use for the one. In breaking up the monotony the guileless Majoria had broken her own heart. She lingered around for twenty years, but no one seemed to want her she folded her hands and died.—New York Sun.

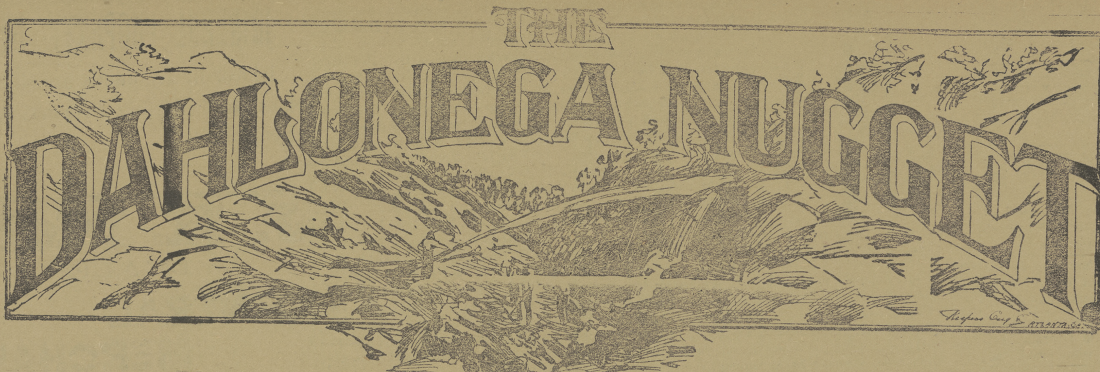

An Editor's Life Saved by Chamberlain's Cough Remedy. During the early part of October 1896, I contracted a bad cold which settled on my lungs and was neglected until I feared that consumption had begun. In an inefficient state, I was constantly coughing and trying to expel something which I could not. I became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement, and after I had used three bottles my lungs were restored to their healthy state.—B. S. Edwards, Publisher of The Review, Wm. and Ill. For sale by F. W. Hall Mdc Co.

Can I obtain a patent? For a prompt answer and an honest opinion write to HUNN & CO., who have had nearly fifty years experience in the patent business. Communications strictly confidential. A Handbook of Information concerning Patents and how to obtain them sent free. Also a Synopsis of machine Patents taken through Hunn & Co. receive special notice in the Patent Office. These are brought widely before the public without cost to the inventor. They are sent every week, clearly illustrating how to get a patent. Application of new ideas is made to the Patent Office. Holding letters, monthly \$2.00 a year. No money paid until the patent is secured. Free trial papers, in color, and photographs of new houses, with plans, and other valuable literature. One application relieves the pain. For sale by P. W. Hall in the City.

## SHE RAISED THEM.

A Georgia Widow's Receipt For Bringing up her Sons.

During a visit to the army camp in Savannah General Joseph Wheeler was entertained by a party of northern men at the De Soto. When, in the good humor of after dinner cigars, one of the men said laughingly:

"How is it, general, that the sleepy farms of the south produce such whirlwind fighters in such small packages?"

"Well, gentlemen," said the little general, puffing at a large man's cigar, "I believe I'll have to give you the answer an old 'cracker' woman once gave me when I asked her a similar question. Not many years ago I had occasion to make a saddle journey through the pine barrens of Georgia, where most everybody is a 'cracker' and mighty shiftless. One day, however, I rode into a little community that showed such signs of thrift as to be quite out of keeping with the general character of the barrens. I do assure you, gentlemen, I rode up to a cabin where a gaunt old woman stood in the doorway, and asked her who owned these little farms that were so well kept.

"That farm on the left belongs to my son Jabez," said she, "and the next one to my boy Zallin, and the next is my boy Potiphar's place, and—"

"Hold on, sister, said I. 'How did you manage to raise such a line of boys, stranger, off here in the woods?"

"Waal, boy, she answered, 'I am a widdy woman, and all I had to raise 'em on was prayer and hickory, but I raised 'em powerful frequent.'—Philadelphia Post.

## Prosperity's Milestones.

"How's your boy doing?" inquired the man whose business takes him occasionally to a rural community where he knows all the inhabitants, says the Washington Star.

"Fine."

"Has a good job has he?"

"He ain't got a job no more. He's got a situation. He started in with a job, where he didn't get nothin' but wages—\$4 a week. But he done so good that they boosted right along, so that now he's got in '810 a week. That there ain't wages. That's salary."

"How are your own affairs prospering?"

"First rate."

"Still pursuing your old business?"

"No, I'm a farmer now."

"Why isn't that what you always were?"

"No, sirree. I don't fool myself with no flatterin' notions. Up to a little while ago, when the wave of prosperity struck I wasn't nothin' but a common cracker. But I've bought an extra piece of ground and lifted a couple of mortgages, and now I'm a farmer. Eh, luck holds out. I'll have some money in the bank in a few years. Then I'm goin' to buy a three-minute horse and a buckboard and mow the grass in front of the house and be an agriculturist."

## CLOCKS OF BYGONE DAYS.

Curiosities in the Museum of a Clock Making Village.

In the town of Schramberg in the Black Forest district of Wurttemberg, Germany, where one of the chief industries is clock making, there has recently been established an interesting museum of timepieces. The collection displays the gradual development in the making of clocks for many centuries.

Among the curiosities are many of great historical value. There is an alarm clock constructed in the year 1680 for the use of travelers. In form it resembles a lantern and the interior is designed to hold a lighted candle. The candle is slowly pushed forward by a spring, which also controls the mechanism of the clock. A little pair of shears clips the wick of the candle automatically every minute to regulate its light. The lantern is inclosed with movable slides, so that the sleeper is not at first disturbed by the presence of light.

The alarm is set by inserting a peg in the second dial plate. When the required hour arrives, the alarm is sounded on at the same time the movable slides fall, flooding the room with light.

Among the curiosities is a Japanese saw clock. The clock itself produces the motive power by descending a saw formed strip of metal, the teeth of which operate the wheel of the clockwork. In another Japanese clock the hands are attached to a weight, which sinks once in 24 hours. The time is indicated by a hand on the perpendicular scale. —Chicago Times Herald.

Before accepting an invitation it is as well to be sure it is given in good faith. After an afternoon service held many years ago in a certain village in Scotland, the preacher, a stranger, who had officiated accompanied one of the elders of the congregation home, and was introduced to his wife. The good man having asked the clergyman to stay to dinner, the latter, after a little pressing, consented.

The good lady hurried off to prepare for the unexpected guest, and seeing, as she thought, her husband washing, as was the custom in those days, at the family sink, she seized the family Bible, approached stealthily from behind, and brought down the ponderous tome upon his bald pate, exclaiming:

"Tak' ye that for bringin' hungry preachers here to dinner every time they come to the parish."

As soon as the assaulted one could get the ends out of his eyes he looked about him, and after thinking the matter out, concluded that the old lady had made a mistake. She, too, came to the same conclusion when, on returning to the parlor, she beheld her husband patiently waiting for his reverend friend.

The militia of Georgia numbers 4,000 men, who will be unopposed by the state at an expense of \$25,000.

## A Remedy.

Mr. Charles N. Pratt, of Rochester, New York, is in Georgia to test what he calls the expansive tree protector, guaranteed to make extinct every species of bug, San Jose Scale, tent caterpillar, canker worm, tussock and gypsy moth. He is acting in concert with State Entomologist Scott. Mr. Pratt says: "The device consists of a felt band especially prepared and saturated with a substance which is absolutely noxious and even repellant to insects, worms and bugs of every description. This pad is fastened to a wire expansive spring by means of which it is fastened around trees and is adjustable to any and all trees, permitting them to grow without injuring the bark. To the pad and spring is attached an apron made of galvanized iron or other metal, the underside of which is covered with a sticky substance impregnated with an insecticide that is sure death to all creepings that infest a tree, so that if any insects or form of bug should attempt to pass the band a dead line is met, and is absolutely impossible for anything to pass it and reach the fruit and foliage." He also claims for it that it will retain its potency for months without restoration or any attention whatever. Mr. Pratt and Prof. Scott visited Marietta last week and made some tests in Judge Gohler's orchard which proved satisfactory. The cost of the "protector" makes it almost prohibitory in its use, about 25 cents a tree. —Journal.

Starlin Martin and Frank Adams were arrested in Gainesville last week for stealing some horse collars. State cases were made against them and the collars will likely be dear ones. They live in White county.

## TOWN and other

Property  
FOR SALE.  
Town lots in Dahlonega on Chestnut street Nos. 108, 122 and 123 on Tan Yard Branch. And the following lots of land in the 11th district of Lumpkin county: Nos. 290, 310, 480, 481, 527, 602, 812, 869, 892, 897. Call or address NUGGET office.

# THE NUGGET

DAHLONEGA, GA., FEB. 2, 1900.

A nice assortment of pants at G. McGuire's.

The spring session of the N. G. A. College began last Tuesday with a good attendance.

The Presbyterian church is about completed and its appearance is beautiful adding much to that part of town.

Presiding Elder Cook and Rev. L. L. Landrum returned from Sparta last Sunday where they had been to carry the remains of the former little boy, who died a few days previous, which was laid to rest by the side of another one of his children in the cemetery at that city.

Many other weekly editors in Georgia have been compelled to offer premiums as an inducement for people to take their papers. We do not have to do this in order to get the Nugget off our hands. The people take it without all this expense. Look on the first page and read over our new list for January.

There is quite a difference in the travel to Dahlonega now and at this time last year. Then many days would pass without a single transient boarder, while now each hotel has a number of them, often coming so many guests that they are crowded to overflow. In fact Dahlonega begins to resemble those days of many years ago.

We enquired of Col. W. P. Price the other day if he would be willing to serve another term, provided he was the choice of the grand jury at the next term of the Superior Court as one of the members of the board of education. The Colonel said that he would finish to the fact that he wished to finish up all the school houses in the county and complete some other business on hand.

We heard a leading citizen of Hall county remark that Col. W. A. Charters, of Dahlonega, was one of the brightest men and ablest lawyers in the state and would hold his own with any of the legal fraternity of Georgia, and would make the Ninth District a good representative in Congress. We agree with the gentleman and would be pleased to see Col. Charters wearing the next honors for this responsible position.

Last Saturday it was reported that Jack Caldwell, of Lumpkin county, together with nine or ten men had been killed by a cave at the copper mines at Ducktown, Tenn., and that Caldwell would be brought back and buried near his father in the upper edge of this county last Sunday. But upon many enquiries we failed to learn of any interest. There is a warrant against Jack in this county for seduction and it is stated now that he was at home on a visit and some of his friends got this report out to keep him from being molested by the sheriff.

Posey West, who resides in the upper edge of this county is very fond of female company and takes great pride in having the honor of escorting one first upon her arrival in his neighborhood. The other night he was informed by some of his companions that a young lady from an adjoining county had arrived in the upper part of the neighborhood on a visit to some relatives. Being services some where close there that night Posey thought he would go up and carry the young lady to church. So he went forward, got slightly acquainted with the girl, (as it doesn't take as long to form the acquaintance in the country as it does in a town or city) and moved on. They talked very little but what the girl did say was in a low tone but it sounded very sweet to Posey. On they went for near a mile and just before reaching their destination the girl's voice changed and Posey for the first time found out that he had been walking with West White, who was a woman dressed.

Mountain Irish potatoes at G. McGuire's. Also some fine pigs. County Surveyor, A. W. Cain, has been quite sick for about a week.

The Gurnet bridge contractor informs us that the structure will be ready for crossing in about a week from now.

Now is the time to correct your numbers of land before they are published for sale. Mr. McAfee has the list which will be turned over to the printer last of this month.

J. N. DalFree, after an absence from Dahlonega of some weeks endeavoring to recruit his health, returned last week but we are sorry to say that he has improved but little if any.

Notwithstanding the public roads have been very rough and disagreeable to travel it has not stopped gold seekers and fortune hunters from coming to our prosperous mountain city.

"Turkey" Bill Postell requests us to state that he will pay a reward of two dollars for the double barrel shot gun, wire barrel with cracked stock, which got misplaced the night the boys rocked his house.

The wild land sales will commence being published first week in next month. There are more than two hundred lots. If you wish to keep posted about these lots send for the Nugget, if you are not already taking it.

Ben. Brown who was arrested by Sheriff Davis last week in this county suspected of murdering a man in Walton county, was carried off by an officer of that county last Sunday. Fortunately the boy had murdered no one, but only hit a man down there on the head with a rock.

Keep an eye out for a cross mark on your paper. It means that your time has expired and you are requested to renew. If it is not done in a reasonable length of time it will be discontinued. We do not propose to send out the Nugget and take any advantage of the newspaper law in making collections for the same.

Mayor Price stated the other night that he had a talk with Judge Newman during his absence in Atlanta a few days ago, who told him that he had made up his mind to send all parties convicted of retailing liquor in Dahlonega to the penitentiary, so as to throw a guard around the many young men who are attending college at this place.

As our townsman, G. H. McGuire was returning from Ellijay the other day a little two years old boy of a Mrs. Holt, living ten miles this side of that place found a pistol on the bed which he picked up and shot itself through the head. This should be another warning to all parties owning fire arms. They should keep them out of the reach of the children.

Two more ministers have been added to the weekly quill drivers of the Ninth District. Revs. Bart let at Jasper and Warwick at Blue Ridge. This is a year of politics and will be a hot time in Georgia. Editors will curse and be cursed and if these two divines succeed in standing the great temptation through the next twelve months without getting off the track it certainly entitles each one to a crown as big as a horseshoe, for it is going to be a trying time on country editors.

A young man of Columbus, Ohio, came all the way from that city to Dahlonega with the intention of wedded a young lady here, only a few days ago, but upon his arrival the girl told him no and he returned alone with a very sad heart. Sometime ago the lady had reconsidered her intention of marrying him and returned his diamond ring, but he thought by coming and seeing her that she would yet consent to have him, but she was firm in her last decision and if he would be with him to look in some other direction for a life mate.

Another certain clerk in a store in Dahlonega is going to ride off in the matrimonial chariot in a few more days.

If you wish to purchase some very desirable building lots within a few steps of the new Baptist church call on or address the editor of the Nugget.

Turner Quillian was over from Hall county latter part of last week. He has supplied the Consolidated Co. with many thousands of feet of choice lumber and is still continuing it.

If you have any special business to transact with this office and can't remember the name of the paper or its editor just address your letter to the "best paper in Dahlonega" and we will get it.

Col. W. P. Price returned last week from a two weeks visit to Atlanta, Savannah and Macon. He went to Macon in the interest of the temperance cause and visited the other two cities for the purpose of seeing his relatives.

Uncle John Gaulin, residing in the western portion of the county, some ten or twelve miles distant, was seriously injured last Friday while handling stock to Barts saw mill, by falling off and the wagon running over him, breaking his thigh and crushing his knee. Drs. Whelchel and Jones were sent for who set his leg and made him as comfortable as possible. He is an old man and his injuries will be longer healing than if he was a young man.

Remember that we stepped out of politics some years ago. We find it more beneficial to work for the upbuilding of Dahlonega and Lumpkin county—politics are not worth a cent in this direction. But nevertheless the Nugget will keep you posted as to the movements of either party, and when the day of the election rolls round we will cast our ballot for the ones we think are best qualified to fill the various offices. And in the meantime if you wish to make the race either running independently or otherwise send or bring the announcement fee and we will place your name conspicuously before the people.

Nine parties charged with various offenses were before mayor Price Monday, all of whom were sentenced to pay fines from one to five dollars, according to the nature of the case. Almon Coffee was sentenced to pay a fine of five dollars and cost or work twenty days on the streets for selling liquor. Dan O Bryan was fined two dollars and cost for a plain Sunday drunk. The mayor's price for a plain drunk during the week is one dollar and double this amount when it occurs on Sunday. This one was on Sunday. John Pinion was charged with a Sunday drunk but stated that he used liquor for the grip, which caused him to get the sympathy of the mayor and was let off for on a dollar fine and cost. Wash Walker, Jr., pled guilty to a plain Monday drunk who received the fixed fine. And last but not least, although they followed him charged with being in company with Mand Corn; Lenard Fretwell, Charlie Thomas, Charlie Hunsley and John Tolbert, who stood their trials and were found guilty. It seems that the four boys had built up a fire one Sunday night down near the mile post on the Araratia road and sit up till day together with this was men watching the stars and discussing various subjects. Nelse Davis was the principle witness in this case as well as in all the rest where the defendants didn't enter a plea of guilt, who made the city a splendid witness. Each were fined two and cost. Mand Corn was called but she didn't appear. The mayor instructed the marshal to arrest the woman and bring her before him so he could bind her over to the Superior Court. An effort was made to catch her the next day but she was away from her headquarters. Three or four other cases were continued until the next meeting of the court.

Some of the laborers down at the Hand lost their jobs because they had been selling liquor to other hands, some days ago.

Hands have already commenced fixing up the side walks. A big improvement has been made on the walk and street in front of the Masonic Hall.

If you want to purchase a nice line of groceries be sure to call on F. M. Williams & Son who wish to sell out their stock in order to get into other business.

The Bostwick Hall will soon be completed. It would have been finished by this time could the contractor have secured the necessary lumber as fast as he needed it.

W. B. Fry, who recently returned from South Dakota, has purchased a lot from Col. Price and is now putting him up a residence below or near the Wilson place.

There was a new arrival at Charlie McAfee's Sunday night—a pretty little girl. To use the common expression of newspaper men "to make the household happy." But when it comes to a man rising at all hours of the night to get the Soothing Syrup when the mercury is playing around zero, and singing so loud and long until every one in the neighborhood is disturbed, we can't see where the pleasure comes in.

The Hall Mds Co. now have one of the largest and most complete stock of goods ever brought to Dahlonega. All you have to do is to call for what you want and a polite and accommodating clerk will be ready to wait upon you at short notice, and either one you trade with will sell you goods at prices that will astonish you. Go and give them a trial and you will be sure to return for they treat every body in such a manner as to cause them to go back.

Next Tuesday is the time set apart by the state school commissioner for the election of county school commissioners throughout Georgia. J. J. Sublett is the present commissioner of Lumpkin county, who has faithfully discharged his duties and will be elected without opposition. He is energetic and wide awake and when a young man has carried out the duties of such a responsible office as this in such a manner as not to have a single opponent so far, speaks volumes for him.

Last Monday as City Marshal Anderson was entering the court house he saw Frank Collins delivering Nelse Davis a pint of liquor. Collins was arrested and the mayor sent for, who came up and upon investigation found that Nelse had given Collins 25 cents for the pint of liquor according to Nelse's testimony and was fined five and cost. Nelson makes a splendid detective, whose services have been very valuable to the city and officers during the past few days. But the other day when a whole lot of John Moore's beef steak stuck to Nelse's fingers and it dropped off into his pocket, nothing was said about that.

Prospective candidates for county offices in Lumpkin county have already commenced sticking up their heads, but they don't know whether to let them remain as a target or not. Some months ago it was decided at a meeting of the executive committee of the democratic party of Lumpkin county to nominate candidates for all county offices. This is causing a delay in politics to some extent. There are a number of democrats in this county that don't care what becomes of the party so they get an office and are waiting to see whether it will be best to allow their names to go before the convention or to make an independent race. We wouldn't be a bit surprised if all candidates nominated for county offices were defeated in this county if the decision of the committee is not canceled. There are so many who remain away from a convention and then if they are not suited claim that they are not under obligation to stick to the convention unless they were there.

The cold wave didn't stop the saw and hammer in Dahlonega. Judge Murray, after remaining a few days in Dahlonega, returned to his home in Tennessee this week.

Capt. Hall's property, recently purchased on the hill near the old Baptist church, is being enclosed by a nice new fence. He anticipates putting up a dwelling shortly on the lot opposite the old Tan Yard.

We can't tell how long our offer of the Nugget and the Atlanta Semi-weekly Journal for \$1.50 will continue as the price of blank paper is rapidly advancing. Send in while the opportunity of this low price is offered.

Dahlonega was visited by another chilly wave Sunday night, sufficiently cold to freeze up our choice moustache as we were coming to the office Monday morning causing us to look very much like pictures in medical almanacs, representing before taking.

Some kind of an accident generally occurs to the hack or team every time Col. Price returns from Gainesville. One time as he was coming home the driver was rushing the team so fast that the carriage moved out from under him as he went to raise up, dropping the Colonel on the ground, making it a pretty hard task for the boy driver to load up again as the Col. weighs more than 250 pounds. Last Friday as he was on his way home the horses pulled the tongue out of the vehicle causing it to appear somewhat like an electric carriage. So we hope the next time the Colonel goes or comes from Gainesville that he will be able to make the trip in an electric car without any accident.

The Enfaula (Ala.) Times gives the following advice which applies to Dahlonega as well as that city: "Help your own town and by so doing help yourself, spend your money here so far as you are able. This is not only good common sense but it is first-class business policy. The money that you send away is gone out of circulation as far as you are concerned, but what you spend here is sure to help in the general prosperity and that will help you sooner or later. Help your merchants and business men who pay the taxes, support your home paper, which aids as much as any other one thing in the upbuilding and advancement of your city."

Squires Worley and Allen held court last Saturday to try the defendants for whom Tessie Owens and Mand Corn had sworn out warrants, which attracted the attention and caused many curious spectators to be present as the prisoners were composed of both men and women. Mand Corn claimed that she had been attacked in the road and two ladies, Mrs. Nancy McDougald and Mrs. Dulie Evans were the guilty parties, both of whom had rocked her, one of them cutting some of the garments she wore, but the defendants proved an alibi and were discharged. As was stated last week some parties tried a few nights previous to "knock down Mrs. Owens' premises, occupied by herself and Mand Corn, who charged that the following persons were the guilty ones: Mr. and Mrs. Alfred Walker, Good Free, Mr. and Mrs. Newman M. Dougald and Miss Nancy Evans. Col. Huff represented the defendants while the interest of the state was looked after by Mrs. Owens, who failed to produce any evidence except that of hers and Mand and the defendants were discharged. All proved that they were at home, causing the prosecutor and her only witness to grow very angry. During Tessie's stay in town she went to the Hall Commissary and bought both a knife and a pistol, saying that she intended to cut our heart out, referring to her in last week's issue. She failed to say whether she would shoot us first or do that after she did the carving. We would request that she sing "Good bye, my honey, I'm gone," so as to cause us to go to sleep before she does either.

The weather still continued very cold up to going to press yesterday.

Miss Arena Duncan, of Gainesville, is visiting her relatives here, Mr. and Mrs. Mercks.

Albert Coffee, col., was fined \$5 and cost Wednesday night by the mayor for selling or delivering liquor.

Mrs. Singleton, wife of Rev. Joseph Singleton, deceased, is here on a visit to her daughter, Mrs. E. R. Cook.

Judge Tate informed us that no checks had been received up to last Wednesday night for the state pensioners of this county, causing these old veterans to become very impatient.

Sealed bids will be received by the trustees of the Masonic Hall for store room until Tuesday, February 6th, at 12 m.

R. H. BAKER, Chm'n.

Last Wednesday we finished up the 31st job for the month of January and had two to begin with for the first of February. If there are others desiring any job work done promptly let them send it in at once and we will accommodate them.

While Mayor Price was absent recently he had a new seal made for the city, with the following: "City of Dahlonega, Georgia, 1833—1890," with a star as an emblem. In 1833 is when the "stars fell" but this is not one of that kind. This is a rising star.

Just before going to press we are reliably informed that the Chicago New South G. M. Co., have closed a trade with Messrs. Dan Howell and Miller for the Briar Patch property and the first payment will be made quite likely before this reaches the eyes of our readers.

There is such a demand for houses in Dahlonega and so many different persons wanting the one which is being fitted up in the lower story of the Masonic Hall that they decided to let it out to the highest bidder as will be seen elsewhere.

Those parties exploding dynamite of nights just to tease the marshal and night watch may come to their sorrow. If they are caught up with there will be no one dollar and cost in the game, but it will go to a higher court. The use of dynamite is very dangerous and is liable to get some ones stock injured or maybe some person hurt.

Only a short time ago Joseph Brooksher, brother of old Uncle John Brooksher, deceased, died at his home in Bates township, S. C. Mr. Brooksher served in the civil war in Co. C, 16th S. C. regiment and lost an arm in 1864 at the battle of Peachtree creek near Atlanta. He attended the funeral of his son and the exposure which he endured in going caused him to take sick from which he was unable to recover. Mr. Brooksher has quite a number of relatives in Lumpkin county to mourn his loss.

On Wednesday night between seven and eight o'clock Henry Birch, of Whitfield county, one of the prisoners in Lumpkin county jail attempted to commit suicide by the use of a sheet or quilt, tying one end around his neck and fastening the other to the grates of the rear window in the hall. The negro prisoners happened to discover him and gave the alarm. The sheriff's wife in the absence of her husband ran up with the scissors, reached through the grates and cut the sheet while one of the negroes held the man up. He was perfectly limber and in a little while longer would have been gone. Dr. Jones was sent for who soon revived Birch. It may be that he will succeed in taking his own life yet—no one knows. Birch has been in jail about three months, charged with horse stealing. Having hired Boy Thomas stallion for a short trip, which he failed to return, but carried the animal in a Whitfield county and left it.

## How Sankey Met Moody.

Ira D. Sankey, to whose wonderful voice the late Dwight L. Moody was wont to credit a large share of success in evangelistic work, feels more of his immediate family, the loss of the great evangelist.

For 30 years they had been close friends as well as co-workers. The first meeting of the two men was remarkable. Mr. Moody, who was then living in Chicago, and Mr. Sankey, whose home was in Pennsylvania, were elected delegates to a Christian convention held in Indianapolis in 1873. It was after 6 o'clock a. m. service in the chapel that they were introduced and Mr. Moody walked up to the great singer and holding out his hand, said, "Mr. Sankey, you are the man I've been looking for eight years. You must come with me."

"I was attracted to the man at once," said Mr. Sankey, in speaking of the matter recently, "but it was not until six months later that we got together and started on our work."

There is no better medicine for the bronchitis than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effective cures children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus making it easier to expectorate, and lessens the severity frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by F. W. Hall, Miss.

Taylor Hamilton is the first man we ever heard of who said he was guilty of murder and the jury wouldn't believe him. Last week he told them in Gainesville that he and three or four others were the ones who visited Hall county jail one night when some of them fired the fatal shots that killed St. Smith, but the jury didn't believe him and turned him and all the others arrested loose. Had Taylor been alone in this matter he would have passed up salt river by this time.

Rats in Clark county jail nibbled off the end of one of the inmates fingers. The prisoner was poverty stricken, and insane, and was being held in jail until room could be secured for him in the asylum. This was in a city where many benevolent institutions are fostered, which is the most forcible illustration that our charitable organizations, public and private, are not properly adjusted.—Ex.

A New York correspondent deplores the tendency of the fashionable set "to raise bull pups instead of babies."

An Editor's Life Saved by Chamberlain's Cough Remedy. During the early part of October 1896 I contracted a bad cold which settled on my lungs and was neglected until I feared that consumption had appeared in an incipient state. I was constantly coughing and trying to expel something which I could not. I became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement. After I had used three bottles my lungs were restored to their healthy state.—B. S. Edwards, Publisher of The Review, Wyand, Ill. For sale by F. W. Hall, Miss.

It is estimated that the mormons now have a membership of 1,500 in South Carolina—that the increase of last year was 10 per cent, over the previous year. Forty missionaries are now doing duty in the state, all of whom will meet in annual conference in Columbia on Feb. 5-4.

A doctor gets paid for giving advice, and so does a lawyer, but when an editor gives advice, all he gets is a general "cussing" out, says an exchange.

An Alabama woman has given birth to six children at a time, weighing five pound each. An exchange suggests that her husband was a God fearing man and did not commit suicide.

The Supreme Court has granted Lowman who killed Stowers in Dawson county some months ago a new trial, on account of the judge erring in his charge to the jury.

Only eight Hall of county grand jury voted to tax the dogs. So Hall will have no dog law for six months at least.

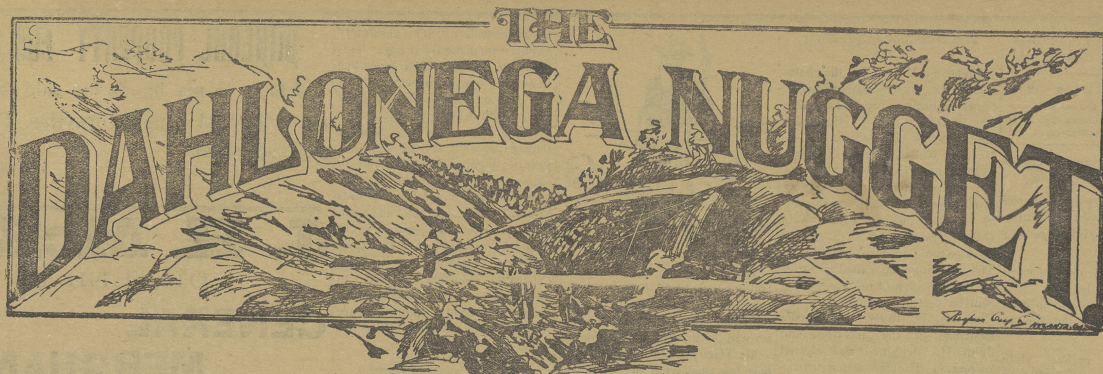

Chief of Police Waters of Gainesville resigned last week. He prefers the mercantile business to the life of a policeman and will go back to work for W. J. & E. C. Palmour.

## SOUTHERN RAILWAY.

O., 215 Broadway, New York City.

#### His Case an Exception.

The great lawyer was, trying a great murder case. The defendant's nearest friend, a man of much practical sense, though little book learning, sat behind the eminent attorney. The work of securing the jury was in progress, and the state had accepted and tendered to the defense a gray haired man.

The defendant's friend leaned over to the lawyer and whispered: "Take that man quick!" The lawyer turned around with a grave and solemn air and said to his adviser in a pompous manner: "You should be more careful in giving me advice. This is a grave matter. Now, I don't think that man will do. He is old. He has one foot in the grave. He is about to be called into the presence of his Maker, and he knows it. When men reaches that age, they are apt to be exceedingly strict and are apt to make a stern judgement between the people of the state and the prisoner at the bar. They hold life something most precious. Do you ever think of these things?" "No," said the practical individual, "but that man in the box is the uncle of the defendant."

"Oh!" exclaimed the lawyer. The man was accepted at once. The jury returned a verdict of not guilty. —New York Journal.

"I think I would go crazy with pain were it not for Chamberlain's Pain Balm," writes Mr. W. H. Stapleton, Hemlock, Pa. "I have been afflicted with rheumatism for several years and have tried remedies without number, but Pain Balm is the best medicine I have yet found of." One application relieves the pain. For sale by F. W. Hall Mds Co.

Several of the best lawyers in the state hold that the tax on dogs passed by the recent legislature will not hold because a dog is not property under law.

#### Shot Him With Shot.

News of a right bad shooting scrape in White county reached the city yesterday. Mr. Hulsey of Enno was in the city and says that Oscar Baker, a young white boy about 14 years of age, shot and seriously wounded a negro man of the name of Riley Richardson on Tuesday. The shooting occurred at Baker's home about two and a half miles from Cleveland.

Young Baker and Riley Richardson had trouble away from the house and Baker was said to have been dealt with in a rough manner by the negro.

Baker fled to his home and the negro followed him. On arriving at the house he asked his father-in-law, Dock Standridge, where the gun was, that he wanted to shoot the negro following him. He procured the gun and, taking deliberate aim, fired. The negro fell as though dead, the shot having entered the chest in the region of the heart. Dr. Kinsey was summoned, but none of the shot could be found. The negro was thought to be in a very critical condition yesterday morning.

Baker had not been arrested yesterday, but is ready to give himself up as he says he acted in self-defense. —Eagle.

#### Widows' Pension Law.

The legislature passed a new law relative to the pensions for widows of Confederate veterans, and the people will be called upon to approve or reject the measure in the elections next fall.

At present the widows have a great deal of trouble trying to make out proofs according to the requirements of the law. They have to find witnesses who can testify that the disease with which their husbands died was contracted in the army, was never cured, and finally resulted in his death. This is becoming more and more difficult to prove, for the reason that the men who served the Confederacy are dying away, and it is difficult to find witnesses who have known their comrades in arms constantly and continuously since the army disbanded. The new law will simplify the matter very much, because all the widows will be required to prove is that their husbands served the Confederacy and have since died, that they were married to them during their army service, and that the widows are now needy. —Eagle.

When one of the Edison electric plants in New York caught fire the other evening the fireman were compelled to let it burn until the current supplied to it from another source could be cut off. If they had squirreled water on it a current of electrically 600 volts strong would have traveled alone the stream, burning up the hose and killing every human being it came in contact with.

The supreme court has decided that a private person is authorized to make an arrest for a misdemeanor only when the offense is committed in his presence or with his immediate knowledge.

#### In Memory of W. M. Simmons.

W. M. Simmons died December 23rd at his home in this county of typhoid fever aged 23 years. The deceased was not a member of any church but was a young man possessed of many rare and noble qualities. He seemed to take great delight in Sabbath Schools and going to church, and when an opportunity offered he always asked an interest in the prayers of God's people. In behalf of his soul it was the pleasure of the writer to talk with him on Thursday before his death about the salvation of his soul. He said that God was able to save him and that he was willing to trust Him, and that he was seeking rest in Him. That evening he asked his mother and brother and Mr. E. D. Gaddis, with other relatives and friends to stand back while he prayed. After awhile he turned back toward them with a smile and said that he saw a light that appeared to him like the moon and said that he was going to see his father who had preceded him to the glory world twelve years ago. He leaves a widow mother and one brother and grand father and mother with many relatives and friends to mourn his loss, but we sorrow not as those that have no hope. He seemed to be in his right mind a short time before his death, and seemed to face death with christian grace and without a struggle. On the evening the 24th of December his remains were interred in Mt. Hope cemetery by the side of his father in the presence of a large concourse of sorrowing relatives and friends. Farewell mother, farewell brother, till we meet again in that bright world above, where parting will be no more. Yet again we hope to meet where the storms of life are over, there with songs of joy to greet him where no farewell tears are shed.  
W. T. Dowdy.

#### Teeth Dropping Out.

General Otis asks that dentists be assigned one to each regiment in the Philippines, and congress will pass a bill to that effect. Months in the tropics has caused some of the soldiers to lose every tooth in their mouth, fever caused them to drop out one by one. It is not the climate which is responsible. It is that which undermines the roots of the teeth, while the tropical fever, which has afflicted nearly every volunteer now in the islands, affects the gum of the mouth and loosens the teeth. Grinding on army biscuit, and canned beef naturally doesn't improve the teeth. This is a coming ailment in the Philippines, and the cause generally is the fever. —Ex.

The business man who sits back and growls because he does not get the trade he should will never get it. The way to get anything is to root for it. The hog that squeals all the time and does not root any, soon gets poor. Watch the man who advertises and see if he isn't doing the bulk of the business—that is if he is handling goods that the people will buy. —Ex.

#### Lightning and Thunder.

By counting the number of seconds in the interval between lightning and thunder it is possible to figure approximately how far from the observer is the scene of the storm. Sound travels 1,100 feet a second, so multiply the number of second by 1,100, which will give the distance in feet from the point where the lightning flashed.

For example, if ten seconds have elapsed the distance away will be 11,000 feet, or a little over two miles. It might be added that, as light and lightning travel so much faster than sound, if one survives after hearing the crashing peal he can be sure he is safe. Remember of this will dissipate terror.

Thunder can be heard a relatively short distance only. Strong cannonading can be heard as far off as 70 or 75 miles, while, thunder is usually not farther away than 12 or 15 miles. In only exceptional instances does the interval between thunder and lightning amount to 100 seconds, so that the extreme distance at which thunder can be heard may be put down as about 21 miles.

#### The Bachelor.

A bachelor is a coward and a failure. He shaves and primps, but is too cowardly to put his arm around success and press it to his bosom. He resolves to marry every day for 40 years, but when the hour for the duel arrives, when in the presence of trembling, rosy cheeks, when beauty shakes her curls, his courage oozes and he flows the field without even learning of the coward that leads to matrimony. Better be "darkey" "Rastus" in his cabin, where he holds old Dinah's hand and asks, "Who's sweet?" and Dinah drops her head on his shoulder and says, "Bofe ef us." —Shawnee Chief.

# THE NUGGET.

DAHLONEGA, GA., FEB. 19, 1900.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

White county prisoners are still kept in the jail at Clarksville.

Some unknown persons entered the post office at Athens last Saturday night and opened hundreds of letters.

A tornado swept over several western towns on the 8th inst., which wrecked houses and injured many people. The damage to property is great.

Candidates for various state house offices are appearing all over Georgia and will soon be as thick as potato bugs in the summer time and almost as great a pest.

What would some of our weekly exchanges do if it wasn't for the plate matter sent out monthly by the Commissioner of Agriculture? It fills up well and gives them a rest.

Henry Towory of Gainesville, who was charged with helping to lynch St. Smith in Hall county jail some time ago, was paid his portion of the reward the other day offered by Gov. Candler, for helping to arrest Smith and lodging him in prison a short time before it occurred.

Green Holcomb, of White county, aged seventy-five, was put in jail one day last week together with his wife, on account of being unable to give a one thousand dollar bond to keep the peace. F. C. Barrett, the old man's son-in-law, swore out the warrant. Barrett must be a very frightful man and afraid of old age.

At the republican meeting held in Dahlonega last Saturday the negroes, who were present made an effort to send delegates composed of men of their color, but there were enough whites to out vote them. The colored people were urged to do this by some of the other party as told us by a democrat just after the meeting was over.

Bussels, Feb. 7.—Charles Francois Fela, an armless artist, died Monday in his 70th year. He painted with his feet and copied hundreds of the best master pieces. Many specimens of his work are now in America. While working he held his palette with his left great toe, and manipulated his brush with his right foot, and with great skill. He always shined himself. He had written a successful tragedy.

Capt. Foster, superintendent of the prison farm, sold 271 bales of cotton the other day to Mr. Samuel Evans for \$1-16, netting \$12,000. This will more than cover the running expenses of the farm for last year. The first of the season the commissioners decided not to sell cotton under 8 cents, so they stored 136 bales in Barrett's warehouse and 135 in Evans' warehouse. Their decision to hold the crop proved a very wise one, realizing for the state quite a large sum. Over 300 acres have been planted in grain, which is looking very fine. Much work has been done towards this year's crops, and it is more than probable a much better showing will be made this year than last.

When one is confronted with the Dead Letter Office statistics he forcibly realizes that the close of this nineteenth century, which is popularly supposed to be full of overflowing with enlightenment, there are thousands upon thousands of persons writing letters who are amazingly ignorant or phenomenally absent-minded, or preposterously careless. There reached the Dead Letter Office last year 6,855, 983 pieces. Including in this vast number were 28,824 letters which were absolutely without an address, and of these 12,443 contained money. In view of these figures would it not be well to make the study of penmanship in our public schools include instruction in the art of addressing letters, so that they will not go astray?

## The Republican Meeting.

Under a call issued by the chairman of the executive committee of the republican party of Lumpkin county assembled in the court house in this city Saturday, Feb. 10, at 11 o'clock to elect delegates to the convention to be held on the 17th day of March in the city of Atlanta and to the 9th Congressional District (which convenes in Gainesville on the 17th, and to elect a county executive committee.

The meeting was called to order by the chairman of the county executive committee, and on motion Capt. H. D. Ingersoll was made chairman of the meeting, and John H. Jenkins was elected secretary. The chairman announced the meeting ready for business whereupon a motion was made and carried that the meeting proceed to elect delegates by ballot to the state convention. W. G. Spencer and W. H. C. Tate were elected delegates and E. S. Copeland and B. F. Anderson as alternates. On motion the meeting proceeded to ballot for delegates to the congressional convention which resulted in Capt. H. D. Ingersoll and D. M. Grizzle being elected as delegates and W. H. C. Tate and L. M. Wells alternates.

On motion the chair appointed H. F. Anderson, W. H. C. Tate, L. M. Wells, D. M. Grizzle and E. S. Copeland as a committee to present the names of suitable persons to compose this executive committee of this county. Also to prepare resolutions. The committee made the following report for executive committee:

We submit the following names to compose the county executive committee:

B. F. Anderson, chairman, John H. Jenkins, secretary, County at large: J. C. Brittain, H. F. Anderson, E. S. Copeland, E. J. Jefferson, S. T. Goodlock, Auraria district: Benj. Brack et, Noel Weaver, Cane Creek: J. H. Satterfield, H. S. Duckett, Chestate: Samuel Jones, Rowa Lance, Crumby: Wash Christy, Richard Dowdy, Dahlonega: D. M. Grizzle, W. J. Hightower, Davis: J. B. Edwards, H. C. Chatten, Frogtown: D. W. Coldwell, T. A. P. Tate, Hightower: Joe. McDougald, H. F. Gaddis, Jones Creek: Miles Berry, Jno. L. Lingerfelt, Martin's Ford: Wilson Head, A. Q. Adams, Mill Creek: F. A. Crane, T. A. Sain, Nimbrowell: L. M. Wells, Geo. Cochran, Porter Springs: W. G. Spencer, Milton Ash, School Creek: Jasper Evans, Adam Peck, Wahoo: John Reayes, James Abernethy, Yalcoo: B. F. Satterfield, Wm. Ash.

We also submit the following resolutions:

1st. We hereby commend the course taken by the administration in dealing with the Philippines as wise and patriotic and we pledge to President McKinley our hearty support. 2nd. That we have perfect confidence in the honesty and integrity of Walter H. Johnson and instruct our delegates to the state convention to vote for him as chairman of state central committee, and we favor the election of Walter H. Johnson, R. D. Locke, Judson Lyon and E. A. Rucker as delegates at large to the National Republican Convention, and we further instruct our delegates to the district convention to vote for H. D. Ingersoll and Hon. J. R. Allen as delegates to the National Convention. 3rd. That we tender to H. D. Ingersoll our thanks for the valuable services he has rendered the party throughout the county and district in the past and, we, the republicans of Lumpkin county, continuing our confidence in his devotion to the party, most heartily recommend him to the district as a delegate to the National Convention from the Ninth Congressional District of Georgia. The resolutions being adopted and there being no further business the meeting adjourned. H. D. INGERSOLL, Chairman, JOHN H. JENKINS, Secretary.

The water was turned on the Hand canal last Friday. The tubes on this end will soon be completed and in a short time the water will be through to the mill.

Mr. Donoyan and an expert were here last week from the north examining Crown Mountain who couldn't help from being pleased if the sight of rich ore is all it takes to please them.

The deposit miners who have heretofore been complaining of the scarcity of water, have had more than they wanted in some places within the past few days, but maybe it will prove beneficial to them when they go to clean up.

Several right nice little pieces of gold were picked up on our streets after the rain this week. However, this is nothing unusual as our city is right in the center of the gold belt and a number of rich veins have been struck and some of them worked within the corporate limits.

We think within the next few days we will be able to chronicle the sale of another lot of mining property in this county to some northern gentlemen who have already been here and inspected it. It is entirely a new deal and will be a surprise to many when it takes place.

The mining boom here is increasing every day and is creating excitement in every direction both far and near, and the beauty of it is it will be a permanent one and is proving beneficial to all classes. Come and see the thousands and thousands of tons of rich ore that are being taken out.

The heavy rains since our last issue somewhat retarded all outdoor work being carried on by the Consolidated Co., but the mechanics and machinists in the mill and chlorination plant moved right along with their work while all underground workmen kept their picks and drills in motion just like clock work. The large machine shop will soon be done, if the weather is favorable, which is being built convenient to both the mill and chlorination plant. The electrician arrived some days ago who will proceed to have the ore cars running by electricity at an early day.

Last week the first payment was made on the Briar Patch property by a St. Louis syndicate. This valuable property was owned by Howell & Miller, of Auraria, Ga., who recently bargained it to this new company for a large sum of money. And now as a payment has been made it shows that the company means business. Dr. Craven, of Chicago, will be general manager who will set the ball to rolling at an early day. The Doctor has spent some time in Dahlonega examining the property and working up the trade who has mixed and mingled with the people and made many warm friends during the time.

The New York Mining Journal, one of the most reliable newspapers of its kind in the whole country, in its last issue very truthfully said: "The Southern States have for years been looked upon some what unfavorably in the mining world, though it was admitted that they contained many promising deposits of gold and copper, and that many million dollars of gold had been produced there in the past. The general lack of success of mining enterprises in that district can be easily explained in more than one way, but in general it may be said that the ore opened have been two low grade to be profitably worked on a small scale, and sufficient capital has not been invested to mine and treat them on

the large scale which is absolutely essential to make them pay. This difficulty has now been overcome in at least one property, that of the Union Copper Mine at Gold Hill, North Carolina, where Mr. W. G. Newman has invested more than \$1,000,000 during the past year in opening the mines and in extensive surface improvements capable of handling large amounts of ore." And this difficulty will soon be overcome right here in Lumpkin county when the Consolidated Company gets its large expensive chlorination plant in operation so as to enable them to successfully treat sulphuretted ore which could not heretofore be done.

Catarrh Cannot be Cured with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free. F. J. CHENEY & Co., Props., Toledo, O. Sold by druggists, price 75c. Hall's Family Pills are the best.

The average applicant for a census enumerator's place is very anxious just now to know when the appointments will be made. If the supervisors know they are keeping "mighty" quiet, and in the mean time the applicants are keeping up their solicitous pleas for the plums. —Blue Ridge Post.

Geo. Taylor seeks to have a peaceful solution of Kentucky's problem and calls on the court to decide the rights of the contestants. He makes a statement which sets forth his views on the situation. The troops have left Frankfort and the legislature is called to convene at the State Capital.

As far as heard from all but three counties have instructed their delegates to cast their votes for Capt. H. D. Ingersoll, of Dahlonega, as a delegate to the national republican convention. He already has 36 votes out of 36.

The recent rains have flooded the lower counties in Georgia, doing much damage.

## You Can't Dodge Them

Did you ever try to dodge the rain-drops? Did not succeed very well, did you? It's just as useless to try to escape from the germs of consumption. You can't do it. They are about us on every hand and we are constantly taking them into our lungs.

Then why don't we all have this disease? Simply because these germs cannot gain a foothold in a strong throat and lungs. It's when these are weak that the germs master. The body must be well supplied with fat. The danger comes when the blood is poor and the body is thin. If your cough does not yield, and your throat and lungs feel raw and sore, you should not delay another day. Take

## Scott's Emulsion

of Cod-Liver Oil with Hypophosphites at once. It will heal the inflamed membranes and greatly strengthen them as well. The digestion becomes stronger, the appetite better and the weight increases. The whole body becomes well fortified and the germs of consumption cannot gain a foothold. It's this strengthening, sustaining and strengthening power of SCOTT'S EMULSION that has made it of such value in all wasting and exhausting diseases.

50c and \$1.00, all druggists. SCOTT & BOWNE, Chemists, New York.

## MINERAL PROPERTY FOR SALE.

# THE NUGGET.

DAHLONEGA, GA., FEB. 16 1900.

Since the rains have ceased all work has been resumed with renewed energy.

Frank Meaders, after being down about Swainsboro for some time, returned home last Friday.

A little boy recently made its appearance at Frank Worleys causing the parent to wear a big broad smile.

The heavy rains since our last issue caused the streams to be much higher than they have been in many months.

The grip has struck the Nugget office with renewed force within the past few days, wounding every one in it from the quill driver down to the devil, or from the devil on up. Just as you please to call it.

Mrs. Mary Perry (Evans) died in Meigs county, Tenn., on February 11th. Her remains will be interred at Silem church in a few days. She was a daughter of Mrs. W. C. Perry, who lives at Silem church.

If the red mud gets much worse on the streets the city council should lease them to some brick manufacturer. It would be a better way to have improved sidewalks and streets than to keep a lot of hands employed who only increase the mud holes.

Nearly every week we receive letters from parties at a distance who wish to move to Dahlonega provided they can get suitable houses to live in. Our reply to them is that they can't get any at all, but will have to purchase lots and build if they wish to locate with us.

The high waters and bad roads have kept many people away from the city during last and this week causing Dahlonega to present a duller appearance than usual. The streams were higher than they have been before in twelve months, but no damage has been done that we have heard of.

R. C. Meaders in a three line local last week advertised for a good cook in the Nugget. The next morning the yard and porches were full of applicants, giving him a chance to select a good one. For a month he had been enquiring for some one to prepare his victuals without any success and at last he decided to try the columns of the newspaper and this is the result.

W. C. Croy, of Dawsonville, is still with us cracking jokes and mending watches. Mr. Croy is the present marshal of that town but there is not enough business to require his constant attention. From the way he looks we think he has a strong notion of moving to Dahlonega. Not for the purpose of doing any official business but to help mend the crippled watches, clocks and musical instruments.

John Findley, who generally comes up from Gainesville and spends much of his time on the brooks fishing nearly every summer will not be with us any more soon. He has gone over to Westminster, S. C., and started up a bright and newsy weekly called the Westminster Times, and a man who runs a weekly paper has got no time for fishing, is why we make this remark. He's got to stay in and about the office so he can be cursed by his delinquent subscribers.

Wednesday was St. Valentines day. Many of the young people in Dahlonega exchanged words of love printed on paper composed by some one else. In the country no notice was taken of the day. It is different in the country to what it is in a town or city. Out at the residences where the birds sing sweetest the young people make no such love as town people do on the 14th day of February. Out there they help their parents work all during the week and then on Sunday when their weeks work is done they meet and do their courting.

All good people who wish to keep posted in the development of Lumpkin county take the Nugget.

Jerry Black and one of his sons were arrested last week by sheriff Davis charged with misdemeanor.

Sheriff Davis went out last Friday and brought in Henry Sheriff who is charged with a misdemeanor—assaulting Mr. Wehant.

D. M. McKee has sold his stock of goods in Dawsonville to James McClure. Mr. McKee may move to Dahlonega and go into business as we understand that he has his eyes cast in this direction.

Yesterday was pay day and several hundred hands working for the Consolidated Co. were made happy when Jim Witt, one of the best bookkeepers in Georgia, handed out what was due them in cash.

Dahlonegas population increased two more last week. The little girl is making its headquarters at Presiding Elder Cooks, and the boy is stopping at Joe Foresters, causing the parents of both to be very happy.

Brick being hauled from Gainesville to Dahlonega cost \$17 per thousand laid down. Making it pretty expensive for building purposes, but it is the best that can be done till the weather gets so they can be manufactured here.

In the monthly report last week of the graded school the name of Callie McAfee appeared instead of Callie McGee. There is no such person here as Callie McAfee and we make this correction so as to encourage the little children.

We would suggest that the city council postpone all street work until more suitable weather unless it is actually a necessity in place. There are already enough mud holes. Working roads or streets in the winter time is simply throwing money away.

The telephone office will be moved from Dr. Jones drugstore to E. S. Copelands. Here a room has been nicely fitted up where it will be attended to with great care and secrecy. It has already paid 80 per cent of the money invested and when properly attended to will pay much better.

We learned from a traveler this week that Henry Duncan, who left this county some time ago recently broke jail in North Carolina who was charged with stealing. It seems that Henry is a pretty bad rooster. When he departed from Lumpkin county he went away with a woman, leaving his wife to take care of herself the best she could.

A man was here from Habersham county last week and stated that a young man who is supposed to be Ollie Jones, that married in Dahlonega and deserted his wife is dead, but we are afraid that it is not so. He said that Jones went by the name of Tink and after working awhile in the mines here returned to that county. He had been a revenue reporter and becoming alarmed for fear that some of the blockaders might get his scalp left for Sonaca, S. C., where he took sick and died.

We are told that the members of the colored Methodist church in Dahlonega number less than one dozen all told. Nevertheless there is a negro preacher who comes here every month from somewhere and preaches to them just as long as there is a cold chicken wing at the house of any of the flock. During the last trip he was here towards the wind up he seemed to be tired or so weak from the light diet he was receiving, that he called on Bro. Henry Thomas, who was fresh in the field, to lead in prayer, who at once began in a loud voice like the Creator was hard of hearing, as follows: "Oh Lord, we again bow on our sin-bowed knees this morning (when it was about 8 p. m.) Forgive us of all our sins. Oh, Lord! Lord! Carry us from the ark of safety and put us on a rock foundation. Not one that is built of sand, but one made of rock. Amen! Amen!"

Dr. Cravens left a few days ago for Chicago after his family.

Geo. Elrod, formerly of this county, died in Hall last Saturday.

Scarcely a day passes but what strangers are here inspecting the country.

The little three or four months old child of Frank Little, residing a mile or so from town, was found dead in bed last Friday morning.

Dahlonega now boasts of a population of at least 1,400, and we believe it will reach the two thousand notch long before next summer ends.

We see that Rev. A. F. Norton, a former citizen of Dahlonega, is going to move from Lula to Cleveland. Maybe by and by the gentleman will drop in Dahlonega and decide to make it his permanent home yet. We hope so, at least.

Nelson Davis said he didn't mean to steal Mr. Whitmire's beef when he put it in his pocket, but was just running to tease the old man. We guess he was for we imagine that there is a heap of fun in it to put a lot of raw beef steak in ones pocket belonging to another man.

Marion Wylie got on such a load of high head last Sunday as to cause the marshal to lock him up. The price of a common plain Sunday drunk is two and cost, Wylie served in the last Spanish American war until peace was declared and we will bet that he never saw a more filthy prison during the whole time than the Dahlonega calaboose.

Last Friday a large dressed rock from Stone Mountain, below Atlanta, passed through Dahlonega to the Hand mine, which was drawn by fourteen mules. It weighed nine thousand pounds, to be used in fitting up the air compressor which is being fixed to run the drills. There are plenty just as good stone in this county close to Dahlonega but it was cheaper to get it there on account of not being prepared to cut it out here.

One night last week while it was dark and raining, Prof. Vickery heard some one knock on his door. He answered the call as soon as possible. Just as he opened the door some strange lad about fifteen years old about half drunk looked up into the Professors face with his eyes almost closed and enquired if he wanted to buy anything to drink. The Professor told him no, he never indulged and closed the door and went back wondering what would become of the one who had commenced the business so young.

The population of Dahlonega has increased considerably since last summer. There was a good deal of sickness then which will create too if the sanitary condition of our city is not more carefully looked after in the future than it has been in the past. So the city council should begin in time so as to prevent this. A special tax of fifty cents or one dollar if necessary, should be levied on every resident of the town to employ a man with a cart to clean up and haul off everything injurious to health every day. This would keep our city in a healthy condition, save peoples lives and keep many of our citizens from having to pay big doctor bills.

Now that the members of the city council have said again that we all must pay our street tax in cash or work the time out ourselves, they should not allow any hands to be employed on the streets that live outside of the town, or at least outside of the county. Give the men here at home the work. They need it and will keep it in circulation among their neighbors. Last year a whole lot of strange negroes were employed on the streets who got the money and carried it off and spent it. Every dollar sent away makes money that much scarcer here at home. By all means keep all the money here you can and Dahlonega will be one of the most prosperous cities, even if she is without any railroad facilities, in Georgia.

Court is now in session in Dawson county. Dahlonega will be represented by both attorneys and defendants.

If you desire something "nobby" in the way of fancy or negligee shirts go to Copelands, and save 25 cents for your trouble.

Beef is being shipped from Houston county, Ga., to Cuba. It brings 45 cents per pound in Cuba. This should induce our Lumpkin county farmers to raise more cattle.

Nice line of laces at Copelands that you should see at once. We have added largely to our stock of shoes and dry goods. Call and examine, compare quality and prices. We shall endeavor to save you 25 per cent on these goods.

Dawson county does not build iron bridges but keeps its money at home and spends it with those who help to run its expenses. Lumpkin county would be better off to day if there was not so much money given to those residing in another state for iron bridges.

We notice of mornings that the merchants who advertise open their stores bright and early and are selling goods long before the others even get up. There is no use for them to open early unless they extend customers an invitation, for they are going where they are invited. The early bird that advertises catches the worm.

The trustees of the N. G. A. College met Tuesday and decided to appropriate a certain amount for the organization of a band for the institution as a part of the military department, the instruments to belong to the college. A large amount of money is paid out to nonresidents every summer by the trustees and citizens for music for the commencement exercises, and we are glad to see this movement on the part of our trustees, for we are highly in favor of keeping as much money at home as we possibly can. There is nothing like having plenty of money in a town or city.

An editor makes enemies. He also makes friends, and good ones, too. A little squib, aimed at no one in particular, will hit some hollow headed individual on a sore spot and he at once declares himself against the paper. The paper may have given him many complimentary notices, but the imaginary thistle puts him on his dignity and he establishes himself a critic, but he has not the nerve to go to the editor with his supposed grievance. Just notice and you will see that the men who are against the home paper are, as a rule, men who would not be missed if they should leave the community for ever. On every question of local interest the home paper stands to make a fight for the interest of the town.—Ex.

Robt. L. London, who lives beyond the Chestatee river on Neisler's road, was in town last Tuesday circulating a petition, asking for a bridge to be built at or near the Neisler Ford, and we are glad to say that he had a large number of petitioners already on the list—not a single person he approached had refused to sign it but one, and his reasons for not doing so was because he was on the next grand jury who stated that he didn't wish to sign a petition that he would have to help to pass upon. This bridge is needed. The people over across the river have helped to pay the taxes to build and keep up every bridge in the county and are entitled to it. Many a time they would have sold their produce in Dahlonega and spent money with us had they been able to get here, but on account of the swollen river or were driven away into another county—carrying their money from Lumpkin and giving it to Hall county. Often when any of them are forced to attend court in Dahlonega they are compelled to travel many miles out of the way by some bridge to get here. Besides this it is nearly three miles nearer to Gainesville from Dahlonega this way than any other route. A splendid road could be made this way, making it a nice short drive to that city.

Patronize your home merchant.

A pretty little boy "teacher" made its appearance down at Prof. Stewarts Wednesday.

Col. Huff returned after a business trip of several days to Gainesville and Atlanta last Friday.

There is a little new comer at Geo. Jenkins' this week. It is a pretty girl and causes George to look pleasing.

Some people may take this weeks Nugget for a baby issue, but it is not. We are only giving the new arrivals in Dahlonega.

Some blockader appeared in Dahlonega last Sunday and sold enough liquor to make several of the boys feel pretty jolly.

The fellow that sent us the valentine Wednesday had better save the copper he paid out for postage and added it towards getting a peck of meal for his children.

The first quarterly meeting was held at the M. E. Church Wednesday night. A committee of ladies were round the afternoon before getting up money to meet the demand.

A couple of gentlemen of Marietta, Ohio, have been at the Hall House several days. Mr. James, of Chattanooga, Tenn., was added to the list of visitors Wednesday. All are looking at the mines.

The grand jury at Dawsonville this week returned a true bill against Charles Dotson, of Dahlonega, for stabbing Frank Burt in that county some time ago, who will probably be tried before court adjourns.

J. C. Pierce pleaded guilty before Mayor Price last Tuesday for a plain Monday drunk, who received the usual sentence and went his way rejoicing because he had recovered from both the drunkenness and the excitement of being before an official.

In preparing the military of the state Gov. Chandler has recognized two more of the Dahlonega cadets by giving them an appointment. He has appointed W. M. Smith cadet major of the University battalion, and S. A. Harris 1st Lieut. inspector of rifle practice.

It seems from a dispatch in the Atlanta Constitution of the 13th inst., from Chattanooga, Tenn., that Dahlonega is going to have one of the finest hotels in Georgia. It says: "The Dahlonega Consolidated Gold Mining Co. has just had plans for a magnificent hotel to be built in Dahlonega prepared by architects in this city, and bids for its erection will be called in a short time. It will cost \$100,000."

A gentleman from Hall county informed us the other day that one of its representatives succeeded in having a bill passed during the last legislature to compel policemen to carry members of the legislature when found drunk, to their hotels instead of to the calaboose. If that legislator returns let him come and see Dahlonegas calaboose and we are sure that he will ask for an amendment not to allow any one to be put in this filthy prison.

In reply to Judge Tate last week about the pensions for widows and old soldiers who have not yet received their money for this year, the agent stated last week that he would commence paying widows on the 20th inst., and old soldiers on the 22nd, but we see since then that he commenced paying off widows last Monday. So it won't be long before those residing in this county will get their money and by and by the soldiers will get theirs.

We are informed that a certain minister residing in Cranbys district went over to the house of one of his brother members the other day to give him a "raking" about something at which he was displeased, but his stay was of short duration, as the member, who is crippled in one arm, picked up a chair with his well hand and made for a divine in such a manner that he ran off with the swiftness of a young lad or only sixteen summers.

Crown Mountain Gold Mining stock seems to be on a boom. It is selling like hot cakes.

The force of laborers has been considerably increased this week in graded off, preparatory to begin another big shift.

Last Saturday the applicants for county school commissioner of Lumpkin county, being A. W. Cain, R. M. Bryson and J. J. Seabolt, stood the examination before Prof. Martin, who had been selected by the board for this purpose. And on Monday following the board convened and re-elected J. J. Seabolt. Mr. Seabolt has held the office one term and made a very creditable official, and so far as we know has given entire satisfaction, at least it looks so, being the choice of those who have dealings with him and are in a position to know. At the same time either of the other young men would likely have made just as good a commissioner, as both are well educated and stand very high in the estimation of all who know them.

The mayors docket is a right interesting record. Here you will find the names of men, women and boys, most of whom have done some kind of mischief between two saps, some of the conduct not known to the public. Any one will be surprised to see the docket. Here you will find cases recorded against boys and young men for being drunk and disorderly whose parents are wholly unaware of their boys ever touching a drop or getting into any kind of mischief. But here they are on record and are kept from the public by the officials through the respect they have for their parents, hoping that they will not be guilty of such conduct any more. Whether this is best for the rising generation we cannot say. Maybe if these young men who are taking their first downward steps knew they would be treated like those who frequently appear before the mayor and every one exposed alike they would be more careful and not make so many mistakes as is often the case and it reach the ears of their parents when it is too late, or maybe one of them win the affections of a young girl who finds out when it is too late that she has selected as her lifemate a man that tips the glass too often, who eventually fills a drunkards grave and she is left with a house full of little children to support the best she can, when maybe if the officers had not concealed his drinking she would not have been left in this condition.

## Lumpkin Mission.

I beg to announce to the members of the ten churches in the Lumpkin Mission that from this date there will be regular Sunday preaching at all the churches, Roy, L. L. Landrum, who is well known to the people will be pastor in charge, and Rev. C. Fletcher Hughes, a most excellent young preacher, will serve as junior preacher. The congregations may depend upon it that the preachers will always be on hand at the appointed hour and I can assure them that no work in this District will be more faithful served. That the people may know the appointments the Nugget kindly publishes them. Cut this out, paste it in your hat and be certain to attend services your next preaching day.

St. Paul 11 a. m. every first Sunday.

ELLISON R. COOK, P. E.  
Feb. 12th, 1900.

## A Narrow Escape.

When Aunt Lucinda was getting to be old lady, she heard of the disgrace and downfall of a man whom she has known for many years.

"Well," she remarked with a sigh of relief, "I always thought I had a narrow escape in not marrying him, and now I know it."

"Why, auntie," said a young woman who happened to be standing by, "you were never engaged to marry that man, were you?"

"Well, perhaps some wouldn't exactly call it an engagement, but he took me to the singing class three times running when I was a girl, and that was near enough to an engagement to make me feel that I've had a very narrow escape."

## The Mason and Dixon Line.

It is a singular fact that in these days when the feeling of sectionalism between the south and north has been entirely lost in the spirit of patriotism and interest in the greater national affairs which are transpiring it is found necessary to restore the Mason and Dixon's line.

The restoration is not caused by any return to the spirit of sectional feud, however, but merely as a means of determining the boundary line between Maryland and Pennsylvania, for which the survey of the limits was made by Charles Mason and Jeremiah Dixon in 1783. The original stone markers of the line, which came from England, have been removed by relic hunters since the civil war, and this necessitates the new survey.—Savannah Press.

Another prison to incorporate the reform idea with that of punishment is one in northern Indiana, under the management of Warden Shideler. The warden seeks a personal acquaintance with every convict in his charge, believing that if he knows their life history and for mer environments, he will be better able to change their course of life. He has adopted the rule of calling them into his office to have talks with them, and he says he is already getting satisfactory results. All illiterate convicts are required to attend night school three times a week. Each convict has been provided with a looking glass, comb and brush, and will be graded according to his neatness of person. Semi-weekly, instead of weekly, papers are permitted to the men, and no censorship is required over their contents.

There is no better medicine for the labials than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effective cures of children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity of frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by F. W. Hall midco.

## Three Papers a Week

FOR ABOUT THE PRICE OF ONE.

This paper and the Atlanta Times and the Atlanta Journal for \$1.50.

Here you get the news of the world and all your local news white it is fresh, in very little more than one paper costs. Either paper is well worth its cost, but by special arrangement we are enabled to put in both of them giving three papers for the low price. You can get this combination at the best price for those who want a state paper and a home paper. Take these and you will keep up with the times.

Desires general news, the Times-Journal has much general news, matter and other articles of general interest to readers. It has regular contributions by Sam Jones, Mrs. W. H. Peltier, John Temple Graves, H. C. Jordan and other distinguished writers. It calls at this time and have your subscriptions for both papers. You can get a sample copy of either paper here on application.

## Woman Pen Estate Dealers.

Woman as real estate dealer are making comfortable incomes throughout the State of New York. The woman sales agent and house broker is being constantly multiplied.

The main reason for the fair sex taking up real estate as a profession is that little capital is required on which to start. Women that have entered the realty business have some times begun plots for the large concerns.

## Condition of the State Treasury.

The books of the state treasury shows that the state has at present on deposit \$1,454,700.53. This showing is somewhat better than that made on February 1st of recent years, and in spite of the increase of the pension roll. The \$50,000 due for the quarter from the lessees of the state's convicts has all been received by the state treasurer.

An Editor's Life saved by Chamberlain's Cough Remedy. During the early part of October 1898 I contracted a bad cold which settled on my lungs and was neglected until I feared that consumption had appeared in an incipient state. I was constantly coughing and trying to expel something which I could not. I became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement, and after I had used three bottles my lungs were restored to their healthy state.—B. S. EDWARDS, Publisher of The Review, Wyand, Ill. For sale by F. W. Hall Midco.

## SOUTHERN RAILWAY.

Condensed Schedule of Passenger Trains. In Effect Dec. 14, 1899.

Commonwealth of Massachusetts—Passenger Trains

# THE NUGGET

DAHLONEGA, GA., FEB. 23 1900.

Sewing machine needles at J. H. McKees.

Mrs. Sarah Bousley, died last Monday in this county some few miles above Dahlonega.

Capt. Ingersoll went down and attended the republican meeting held in Gainesville last Saturday.

Persons preparing articles in tended for both the city papers should write them differently so as to cause them to be read with more interest.

Dahlonega has a minister who drinks a gallon of butter milk every day. He eats but little else and finds it very healthy and nourishing.

We are glad to learn that our friend John H. Moore ex-clerk of the Superior court, is improving. For awhile it was feared that he would not recover without a considerable change. This took place and we trust he will soon be up on foot again.

There is already a good demand for lumber in Dahlonega but it will greatly increase next spring and summer. Let every owner of a saw mill in Lumpkin and even in adjoining counties get their machinery in good trim and be ready for the rush when it begins.

The new pastor of the Methodist church seems to be waking up the members of that house to a sense of their duty by the several very able sermons he has delivered since coming to our midst. He has been following the business a long time and knows what to say in order to touch the tenderest spots, which has already had a telling effect.

Does any one wish to make big money in the brick business? If so come to Dahlonega and start a brick yard. There is not a single brick for sale in Dahlonega nor Lumpkin county of any kind that can be had for love or money. Millions of them will be needed here next summer. We can't have large new hotels without plenty of lumber and brick.

Prof. Boyd is arranging to go to building his new residence. He has had a large number of stock cut and will have a big amount of the lumber needed, sawed on the spot by a gentleman from Forsyth county who visited this section with his mill and done a large amount of work last summer. Just now he is located a few miles above town. More mills are needed badly to cut the vast amount of splendid timber we have in this county.

Mr. Bloomer, the editor of the Toledo (Ohio) News and a stockholder of the Dahlonega Consolidated Co., has been here a little over a month, resting up and taking a general survey of the gold mines as well as all other industries in Lumpkin county. The gentleman is highly delighted with our healthy climate, who has gained several pounds already. Mr. Bloomer says that Dahlonega's population will soon begin to increase by the thousands. He adds that there are several branches of industry needed here, the two of the most important being a brick yard and a lumber yard with a planer and moulding machines so as to enable them to furnish pressed brick and all kinds of lumber at short notice. He states that millions of brick and large quantities of lumber will be needed here for building purposes next spring and summer and that a lumber famine will surely occur if the facilities for saving lumber are not largely increased. This northern gentleman has given this subject much thought during his present visit here and is in a position to know what he is talking about, who wound up his conversation by saying that the opening was splendid and the investment safe for any one with a few thousand dollars wishing to make big money in the last two branches of industry.

Union sets, seed potatoes and garden seeds at J. H. McKees.

If you want the news while it is new and fresh send for the NUGGET.

Bruce's beautiful mining views are the fastest selling things in his line now.

You can get nicely printed visiting cards at this office so cheap that you can greatly increase your calls.

The price of coffee is advancing rapidly. If it gets as high as the merchants and drummers say it will common people will have to commence using bran coffee like they had to during the civil war.

T. S. Littlefield, has moved back to this county from Gainesville and settled down at Grace. Should he ever think of doing any thing wrong he will be able to resist the temptation by just thinking where he is at.

Our only three enemies in Dahlonega needn't get worried because the NUGGET is the leading "horse" in town. It gets there all the same. What they say against it has no effect whatever—only advertises it that much more.

Bruce Crawford, a brother of Mrs. H. D. Gurley, was up on a visit from Atlanta last week. Mr. Crawford attended college here many years ago. He takes a delight in coming up occasionally and looking over the old school ground where he enjoyed the company of his school mates in by gone days, and we too always like to see him come.

G. D. Bruce, Dahlonega's most excellent photographer, received another order from a gentleman in Michigan last week for a series of his mining views which he had seen advertised in the NUGGET, being worth from twenty to twenty-five dollars. People every where are becoming interested in our vast mineral resources. And last but not least this shows the benefits derived from advertising.

A young son of J. S. Chester of Niblewell district was bound over by Com. Baker last week for having been caught working in an illicit distillery by Dept. Collector Hymen Richardson and Deputy Marshal Grizzle. Mr. Richardson used to be a cotton buyer and when he couldn't get a large bale he would take a small one. Same way in the revenue business. When he can't get a man he will take a boy. A man named Gilland was also arrested.

Young Mr. Sweat, who runs the engine at the core drill down at the Benning had the misfortune to get one of his arms fractured last Friday by a rock falling on it caused from a blast. Before the explosion the hands nearest took refuge under a shelter but when the report was heard Mr. Sweat went out before the danger was over and one of the heavy rocks which had been thrown high into the air dropped on his arm with the above results.

Whether you are doing business in a city, town or in the country you should have printed letter-heads and envelopes. Merchants injure their trade sometimes by using too stinky. It is not economy to write your business letters on common brown paper. By doing so people will think you are too close to give good weight. You can overcome this difficulty by calling or sending to this office and get nice stationery printed about as cheap as you can buy the blank material.

In reply to the party desiring to know if we will send the NUGGET and wait for our pay until the end of the year provided he sends in a club of five or more we will say no. Should we undertake to do a thing of this kind with subscribers our meat tub would become empty and we would grow so lean and weak that our Creator would scarcely know us. We are not running this paper for fun but for the money there is in it. A person making this kind of a request is not very anxious to read a paper no way.

The telephone office is now at S. W. Copelands, nicely fitted up for all who wish to pay a quarter and talk with their friends or to any one else.

"Uacle" Clark Bryan, a highly respected citizen who resides a few miles above Dahlonega, has been very sick, but we are glad to learn that he is much better and trust that he will soon recover.

We hate to see some people so modest that they can scarcely read things which are sometimes recorded in a weekly newspaper who half the time sleep with the Police Gazette under their heads.

The addition of the other story to the Consolidated Cos. large hotel will begin just as soon as the lumber is received. This will be a fine structure and it is said that it will not be the only one.

Charlie Dotson, of this county, was sentenced to pay a fine of forty dollars in Dawson Superior Court last week for the offense of stabbing, which has been paid and Charlie is out of trouble again. It cost him about \$80.

A right nice sum of money passed through the city treasurers hands of Dahlonega last year, being \$1,877.12. The amount paid in was as follows: Dog tax, 1.00. Show tax \$8.00. Street tax, \$540.89. Property tax, \$1,328.32.

One day last week Silas Gayden, who left this county several years ago and was believed to be dead by his relatives and friends here, wrote a letter to his son residing in this county, being the first time he had heard from his father in six years. He is in South Carolina.

J. K. P. Lance, one of the most prosperous farmers in the county, was in last week and renewed his subscription until Feb. 1901. He is now putting up a new dwelling on his farm which is nearing completion. All people prosper who take and read their home paper.

More houses are needed in Dahlonega and needed badly. Our population can't increase any more until extra room can be made. There are numbers of persons here every day in search of houses but it is all in vain. Two room dwellings with only one fire place rent for from five to seven dollars per month. Those having money couldn't find a better investment than to come here, purchase some desirable location and put up a lot of cottages.

THANKS.—Words are inadequate to express our appreciation of the many kindnesses shown us in our recent trouble, but we take advantage of the courtesy of the NUGGET to thank the ladies for the generous and timely donations sent to the parsonage last week. "Sympathy," it has been said is the "crowning grace of humanity," and the thoughtful delicate kindnesses of our friends has led us to crown this grace anew in our hearts.

MR. & MRS. ELLISON R. COOK.

As will be seen elsewhere the revenue cases from White, Dawson, Union and Lumpkin set for trial number 132—White 123, Dawson 57, Union 39 and Lumpkin 24. Dawson county takes the cake for the largest number of blockaders. Of course all these defendants are not likely to be found guilty but enough will to make an average of about three months each for the total, which will be 396 months time cleared away in some prison—a clear loss that can't be regained. Such as this is enough to injure any county.

We had a pleasant call last Monday from W. F. Birch, of St. Louis, who has been in Lumpkin county for several months. Mr. Birch is not here altogether for his health, although he has gained several pounds since his sojourn in this county. What is most attractive to the gentleman is the gold mines, in which he has been interested for more than three years, being one of the firm of Birch Bros., the owners and operators of the dredge boat now in the Chestatee river which saves gold as fine as flour and pays well.

A lot of magnifying glasses just received by J. F. Moore.

Presiding Elder Cook left yesterday for Rabun county to be gone for a couple of weeks.

The night watch is now looking after the streets and only sits up and watches when it is dry and windy.

Our market men can scarcely get any cattle to supply their customers with the amount of beef desired.

G. McGuire has moved his dining room and kitchen, which were out on the street, back some six feet on his own territory.

Mr. Morris a mechanic, of Hall county, has rented a dwelling from Capt. F. M. Williams for the purpose of making Dahlonega his home.

Beef has advanced two and half cents per pound in Dahlonega, and now if you eat any beef steak you will have to give twelve and a half cents for it.

The city council are having a rock culvert built across the street near Col. Bakers. Another one will be built across the street near G. McGuire's stable.

Look out for the list of unreturned wild lands which will appear and be sold in this county on the first Tuesday in June. They will appear next week.

Dr. Nabers, after remaining in Dahlonega only a few months decided to pull up stakes this week and move back to Banks county. The Doctor is a good citizen and we dislike to give him up.

A. L. Vanderver, of Dawson county, has moved to Dahlonega for the purpose of making it his future home, and is now behind the counter of Anderson & Jones. He is accompanied by his mother.

Mrs. Riley Davis died Thursday last week near Auraria. Her remains were interred in the cemetery at that place the following day. Mrs. Davis was the mother of Mrs. J. T. Hutcherson and J. N. Davis.

Union county wagoners passed through Dahlonega with hundreds of dozens of eggs last Tuesday for the lower market. They would not take less than twelve and a half cents per dozen cash in Dahlonega for one hundred dozen lots.

Persons should be very careful and not use profane language before females. One of our citizens had to attend Dawson Superior court last week charged with swearing before ladies and there is no telling what it will eventually cost him.

C. W. Satterfield, business manager of the mercantile business of the Consolidated Co., has purchased a town lot from Ordinary Tate next to the old Signal office building, who has ordered his lumber and will commence the erection of a nice comfortable residence at once.

The familiar face of T. F. Jackson, the clever and polite book keeper at J. F. Moor's failed to appear at that stand most of this week on account of the sudden and serious sickness of his wife. The lady is improving and we hope she will soon be enjoying her usual good health.

We regret to learn of the death of Mrs. Whorton, mother of S. M. Whorton, owner of the Calhoun mine in this county, which occurred in Atlanta last Sunday night. Mr. Whorton has been by the bedside of his sick mother about a month. Whorton and son left for that city Monday to attend the funeral of his grandmother.

Just as soon as the power can be had the Consolidated store, office, etc., will be lit up by electricity, which will not be very long. It is stated also that the street from the company's store to the Hand mill will be lit up in the same manner. We hope the time is not far distant when the whole town will be bright with electricity so the present lightning bug lamps can be done away with.

All those merchants who patronize this paper are doing a thriving business.

J. H. McKee has a line of farming tools, also carpenters tools—chisels, augers, handsaws, hatchets, etc.

Geo. Jenkins has purchased a lot from Prof. J. W. Boyd with the expectation of building him a residence at an early day.

Mr. Martin Head was wedded to Miss Neomi, daughter of Joseph Rider, on Thursday last week by Rev. J. W. Phillips in this county.

You can get blank deeds, options, notes and all kinds of blanks used by Justices of the Peace and bailiffs at this office about as cheap as you can secure the blank paper elsewhere.

Remember that the NUGGET is no 75 cents sheet. It takes \$1.00 to get it twelve months. If you don't think it worth this amount you need not take it—there is nothing compulsory about it.

Dahlonega was visited by another cold wave last Saturday causing a delay in peach trees blooming which may result in a large yield of peaches this year and a big turn out of criminals next fall for the revenue officials to catch.

New subscribers are still being added to our roll this month which will enable us to give our readers a right nice list next week. People shortly after their arrival here are not long in finding out that the NUGGET is a fearless paper which gives the news as it occurs without favor or affection.

Heretofore we have been noting the arrival of all little visitors in our city but now that Dahlonega has become a prosperous place, with such rapid growth in population that we will hereafter leave off the names of all little ones and give our attention to older persons of more importance.

The Consolidated Co. use extra precaution in the management of its business. Two night watchmen are employed at the plant and one at the store, with a strong addition at the latter place on the night before pay day every 15th, so as to make it interesting for any safe blowers or robbers who may wish to come this way.

If you want to do a successful business put your ad. in this paper. We mean our home merchants. We are not soliciting any ads. from other places that conflict with the business of our Dahlonega merchants. We were born and reared in Dahlonega and think enough of the place to do all we can to help build it up.

Every man who owns a saw mill should not idle away a moments time but go to work and save every foot of lumber possible, for there is going to be a lumber famine here the coming spring. Even now the Consolidated Co. are unable to push their works as fast as desired on account of the mill men being thousands of feet behind with their orders.

Mr. Mealer, the junior member of the firm running the Gainesville Iron Works dropped in to see us one day last week with a dollar bill in his hand for the NUGGET. This firm has been doing business in Gainesville for many years and has received a large patronage from many of the citizens of Dahlonega and surrounding county, all of whom have been satisfied with both the work and prices of the company.

We understand that Mrs. Tessie Owens, who is preparing to leave for another clime, is going to make a request that we publish something for her. It may be that she desires to give the names of all the arrivals at that resort for the past few months. We would advise all pastors of churches in this community who have not already done so not to revise their church lists until they see her report as it may enable them to correct them without any errors, if all reports are correct.

H. D. Gurley visited Atlanta last week.

A nice line of umbrellas just received at J. H. McKees.

A twin infant of John Barker was buried last Sunday.

The Dahlonega District preachers meeting convenes at Clarkesville on the 3rd, 4th and 5th of April.

We hear of quite a number of stores being opened out in Lumpkin county. This denotes prosperous times.

We are having a variety of weather now. A blizzard Saturday, thunder storm Wednesday and snow Thursday.

The widows pension checks for those residing in Lumpkin county amounting to \$900, were received by Judge Tate last Wednesday afternoon.

We have purchased a pair of fifteen cents breeches and are going to get a pair of leggins to protect them so as to be in style. Leggins are all the go now.

Col. Charters left this week for Clayton to attend Rabun Superior Court which convenes at that place next Monday. The following week he will go to court at Clarkesville.

Mr. Henley, the wide awake general manager of the Hall Mide Co., went down to Gainesville last Sunday and spent a short time, consulting with Capt. Hall, and other friends.

F. W. Bambridge and E. G. Thomason, of Ohio, came in Monday night. They are members of the Consolidated Co., visit Dahlonega frequently and are always heartily welcomed.

Collector Richardson and Marshal Grizzle made a very successful raid up in Mill Creek district last Tuesday. They captured F. E. Fowler, C. M. Sullivan and E. J. Huskerson while working in an illicit distillery, and destroyed a large amount of beer.

The new Presbyterian church at this place is receiving the finishing touch, which causes it to have a neat and attractive appearance. Rev. W. L. Harrell, of Toccoa, Ga., has been selected as its pastor for the present year, who has accepted the call and will preach monthly.

Some blockader came in last Tuesday night and left enough of the high beam to make quite a number feel happy the next day, causing some of the colored males and females to shake their feet a little that afternoon. The out door dance occurred on the small space of ground between the colored Methodist church and parsonage, and reminded us of Christmas times.

Early in May, when the weather becomes nice and pleasant and the machinery of the Dahlonega Consolidated Gold Mining Co. gigantic plant gets in full motion, a day will be fixed for the citizens of Dahlonega and all who are interested in their welfare, to meet together and "rejoice and be exceedingly glad" because the wave of prosperity has reached our city brought here by our friends in the north expending thousands and thousands of dollars in the introduction of very expensive modern machinery so as to thoroughly develop our mineral resources, causing Dahlonega's population to increase several hundred within the past few months and plenty of money for all who are willing to work. A few days ago Mayor Price, feeling that our citizens desired to show their appreciation in some manner, wrote a letter to Capt. J. W. Adams, pres. of the Consolidated Co. about this matter, enquiring if the company had any objections to the citizens fixing a day, inviting Gov. Candler and many other prominent parties and having a big jubilee. This resulted in a meeting of the council Tuesday night, when Mr. Adams appeared and told the body that he was perfectly willing to co-operate with the citizens in this movement. Committees were appointed and a tent will be built or some other arrangements made to accommodate four or five hundred people.

# Census Information.

The following article, enumerating those things expected to be given two census enumerators, is being published throughout the country, with the request to preserve it until June 1st, of this year:

"1. The first really valuable census of agriculture in the United States was taken in 1850, of the crops of 1849. The next enumeration of agriculture will be taken in June, 1900, of the products of 1899."

"2. Instead of recording several farms on one schedule in the twelfth census, as heretofore, each farm will be accorded a separate blank, the entries on which will be known to any save sworn officers of the department. No man will be published in connection with information secured from the people."

"3. Tax assessors, collectors and equalizers cannot serve as enumerators, or have access to the census returned, or to the information therein contained."

"4. There are more than 5,000,000 farms, plantations, ranches, stock ranges and market gardens in the United States, all of which, for census purposes, will be designated as 'farms.'"

"5. A 'farm' is all the land cultivated or held for agricultural purposes under one management, whether in a single body or in separate parcels."

"6. The enumerator will ask for the size and value of each farm, the value of buildings, and the aggregate value of all machinery, implements, vehicles, harness, etc., used thereon; and the amount of land owned and leased, respectively, by said occupant."

"7. He will also ask for the acreage and value of each crop, and the acreage of improved, unimproved, irrigated lands."

"8. The designation 'each crop' includes all grains, cotton, corn, rice, sugar cane, sugar beets, sorghum, hay, clover, wild grasses, gathered forage, flax, hemp, hops, peanuts, tobacco, seed, nuts, tropical fruits, small fruits, orchard fruits, nursery and greenhouse stock, broom corn, Irish potatoes, sweet potatoes and yams, all vegetables, including the product of all family, truck and market gardens, etc., also new and unusual crops, when found."

"9. The enumerator will ask for the number and value of the live stock on the farm June 1, 1900, which will be reported under a number of heads, such as horses, colts, mules, asses, cows, heifers, steers, calves, bulls, ewes, rams, lambs, swine, goats, chickens (including guinea fowls) turkeys, geese, ducks, bees, etc."

"10. He will also ask for the quantity and value of milk, cream, butter, cheese, raisins, prunes, molasses, syrup, sugar, eggs, bees wax, honey, wool, wine, cider, vinegar, dried and evaporated fruits, forest products, and, generally, all articles made at home, or for the home from farm materials in 1899."

"11. If a person who moves from a farm between the end of the crop year 1899, and June 1, 1900, will leave a written record of the products and crops of that farm for 1899 where it will reach the appropriate enumerator, the statistics of his operations for that year will not be lost. It will be required to give the enumerator of the district in which he lives on June 1, 1900, the acreage, value, buildings, machinery, implements and live stock of the farm he then occupies."

"12. If every farmer will begin at once to prepare a careful record of all the facts which the enumerators will be instructed to record in June, 1900, he will save time for himself and the officer, and insure more accurate returns to the government."—Exchange.

The Supreme court has decided that all corporations heretofore exempt of taxation by municipalities must pay all arrearages. This means for Atlanta \$80,000 back taxes and \$20,000 per annum in crease for the future.

Commenting on "our wonderful financial system," the Chicago Journal says the government sells bonds to get money; then it takes back the bonds to get rid of the money; it pays interest on the money it gets, and the New York bankers charge more interest on the money it gets rid of. It is a wonderful system, truly.

A Detroit clergyman advances the novel proposition that "if Adam had worked three hundred days each year from the day he was created to the present time, at a salary of \$50 a day, he would not have earned by this time as much property as is owned by Rockefeller or Vanderbilt."

State Librarian Brown announces that the 107th Georgia reports will be ready for delivery about March 1. One thousand copies have been printed, and any successive issues will be in quantities of 500 volumes each. These reports will be sold at the usual price and will be in great demand.

An Editor's Life Saved by Chamberlain's Cough Remedy. During the early part of October 1899, I contracted a bad cold which settled on my lungs; and was neglected until I feared that consumption had appeared in an incipient state. I was constantly coughing and trying to expel something which I could not, became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement, and after I had used three bottles my lungs were restored to the healthy state.—R. S. EDWARDS, Publisher of the Review, Wyand, Ill. For sale by F. W. Hall Mase Co.
